The Best Roses for America and Why

1861

1912

FIFTY years ago, Alfred F. Conard, the honored founder of our firm, began business in West Grove. It was here, later, that he conceived the idea of growing own-root Roses, to send by mail to all the world. He prepared the first Rose mail order catalogue. He placed the first Rose mail order advertisement. He lived to see vast and beneficent changes follow. A thousand homes now enjoy the queen of flowers where but one had Roses before he made possible their widespread distribution. He has passed to rest, but his fifty years of labor forms the basis for our ability to "make" THE BEST ROSES FOR AMERICA.

The enthusiastic young man whose devotion and ability as a Rose-grower made possible Mr. Conard's success retains his enthusiasm and continues his

great work as vice-president and superintendent of The Conard & Jones Company. A half century's experience with the world's Roses has but strengthened Antoine Wintzer's love for them, and added to the knowledge and discrimination which helps us "make" THE BEST ROSES FOR AMERICA. Our President, Robert Pyle, who has grown up close to our two Rose veterans, last year visited the world's famous Rose gardens, trial grounds and Rose shows. He was sole American judge at the great "International Exhibition of New Roses,"

held in Paris, 1911. All the observation and advance information obtained through his eight thousand miles of Rose travel through two continents are added to the ability of The Conard & Jones Company to "make" THE BEST ROSES FOR AMERICA.

WE ALSO OFFER CANNAS, SHRUBS, HARDY PLANTS, FRUITS, BULBS AND FLOWER SEEDS. SEE NEXT PAGE

WHEN YOU ORDER

enclosed Order Sheet and Envelope will be found a convenience—more will be sent on request

Order Early.—It pays in many ways.

State the Date upon which you want your order sent, or better still, leave the time of shipment to us and we will send at planting-time in your locality.

Money Should Accompany the Order, and may be sent at our risk if forwarded by Postal or Express Money Order, Bank Draft, or in Registered Letter.

Foreign Orders.—To cover additional cost of packing, etc., customers living outside U. S. A. will please add 33 1/3 per cent extra payments to amounts named in this book. (See special circular.)

Our Spanish Catalogue of Roses will be sent on request.

NEW FREE DELIVERY SERVICE

All the items in our catalogue which are priced "postpaid" will be delivered free by mail in U. S. A. and possessions, Canada and Mexico. Customers living elsewhere should add one-third extra.

But we have always encouraged our patrons to order their Roses sent by express. We send larger plants, and, with earth on the roots, they arrive in better condition. Being alert to give our patrons the best possible delivery service our country affords, we now announce that

We will PREPAY all EXPRESS CHARGES to any point in U. S. A. or Canada on orders from this book amounting to \$5 or more

On all orders amounting to less than \$5, we will prepay the express charges if purchaser, in making remittance, will add 10 per cent to the total amount of the order

We publish annually the following:

January 1st

The Best Roses for America

February 1st

INSTRUCTIVE BOOKS ON GARDENING

Do you know how to grow good Roses, good Carnations, good Chrysanthemums, good Violets, and have you learned how to get most pleasing results from your hardy garden? If you really want a thorough knowledge of any of the above subjects, these books will, if carefully studied, give you more information in an hour than you could acquire by experience in years, and when you consider the cost and disappointment of a failure in your flowers, you will agree that it pays to know how to grow them successfully.

- A Woman's Hardy Garden.** By Mrs. H. R. Ely. A most-popular book; full of practical information about hardy perennials, shrubs, bulbs, etc. \$1.85, postpaid.
- Bulbs and Tuberos-rooted Plants.** By Allen. \$1.50, postpaid.
- American Carnation Culture.** Varieties, classification, propagation, etc., by L. L. Lamborn. \$1.50, postpaid.
- The Chrysanthemum.** By Arthur Herrington. Varieties, how to grow, etc. 50 cts., postpaid.
- The Practical Flower Garden.** By Mrs. Ely. \$2, postpaid.
- Garden Making.** By L. H. Bailey. Suggestions for utilizing of home grounds. 417 pages, 256 illustrations. \$2, postpaid.

- Garden Profits.** By Seymour. \$1, postpaid.

- Mary's Garden and How It Grew.** By Frances S. Duncan. Charmingly instructive. \$1.25, postpaid.
- Practical Floriculture.** By Peter Henderson. A guide for the commercial florist; equally valuable for the amateur. 325 pages, fully illustrated. \$1.50, postpaid.
- Roses.** See 4 best books at foot of page 43.
- Violet Culture.** See page 63. \$1.50, postpaid.

Germination Table, with Index to Flower Seeds

It is important to know the approximate time required by seeds for germination in order to sow them with satisfaction and success. Many seeds are condemned and neglected before they have had sufficient time to start. Always divide the packages and sow at different times. You can then give them a second or third trial. Sow seeds that start about the same time together. Keep the seed box or bed moist, but not wet, and do not let the soil dry out until the seeds have had ample time to germinate (see Self-Watering Boxes, page 96). Seeds are influenced by conditions, and the plants may appear 25 per cent earlier or 25 per cent later than the table indicates, according to circumstances. Following is the page reference and the key to germination: a, 5 days, b, 8 days, etc. The star (*) added means that the seeds may take much longer time than stated, some lying dormant for weeks or months before starting.

For the convenience of our customers we have employed these signs to indicate the class to which belong the varieties opposite which they each appear.

- ⊙ **Annuals.** These grow, flower and die the first year from seed.
- ⊙ **Biennials.** These grow from seed one year, bloom and die the next, if sown early some varieties bloom the first year.
- ⊓ **Greenhouse Plants.** Start seeds inside, transplant outside when all danger of frost is over.
- ⊓ **Perennials.** Continue for several years, and bloom annually after the first season; some varieties, if sown early, bloom the first year.
- ⊓ **Stove Plants.** Grow inside all year. For pots only.

§ Climbing Plants. Climbers.

Flowers from Seeds. Any ordinary soil will grow beautiful flowers if you make it fine and mellow, and plant about the time the fruit trees are coming into bloom. Very fine seeds should be merely pressed in with the hand, therefore do not cover too deeply and do not plant when ground is wet and soggy.

Do not allow plants to stand too thickly; transplant if necessary. If crowded, they cannot grow or bloom satisfactorily.

Transplanting. Nearly all flowers are improved by transplanting except sweet peas, poppies, nasturtiums, etc., which are usually sown where they are to grow. By starting tender seeds in window-boxes, hotbeds or coldframes, and transplanting at proper time when ready, you escape danger from frost.

THE ROSE-LOVER'S CALENDAR OF OPERATIONS

These dates will be found relatively correct for the average season in the latitude of Philadelphia. If you live North or South, make usual allowance of about four days for every 100 miles of latitude. Comparative altitude must also be taken into consideration. The seasons vary; for example, the ground may be in good condition and ready for digging, one year, as much as three weeks earlier than it is the following spring.

FEBRUARY

Make your planting plans, and send in your order.

MARCH

15th. Such hardy Roses as you have already planted should now be pruned.
25th to 30th. As soon as the ground can be well worked, plant new hardy Roses which are to be had dormant. Prune these even more closely than older established bushes.

APRIL

10th. Less hardy Roses, including the Everblooming class, should be pruned. Begin to remove the winter protection as the increasing heat of the sun permits.
15th. Roses are not immune from mildew and other fungoid contagious diseases, therefore it pays at this time to spray with Bordeaux Mixture all your beds, and near-by fruit trees and grape-vines.
25th to 30th. Finish uncovering and pruning your Roses. Plant new ones (now or until May 10th). A slight protection over the tops will prove an advantage.

MAY

1st to 10th. As soon as plants are well set with foliage, a spraying with Nicotine or Sulpho-Tobacco Soap will act as a preventive against Aphis (Green Fly).
20th. As soon as buds begin to swell, weak manure water may be applied to the plants. Spray again to kill off the aphis, otherwise they will multiply with amazing speed.
25th. Now starts the season's procession of bloom, led by the sturdy Rugosas and the Yellow Briar Roses. Start feeding the Hybrid Perpetual Roses with liquid manure.

JUNE

1st. With this month we see the true glory of the "Feast of Roses."
5th. Watch for the Rose beetle and Rose slug, and spray every ten days for three weeks with arsenate of lead (1lb. to 10 gals. of water).

Where to Grow Roses

"He who would have beautiful Roses in his garden must have beautiful Roses in his heart. He must love them well and always. He must have not only the glowing admiration, the enthusiasm and the passion, but the tenderness, the thoughtfulness, the reverence, the watchfulness of love." So wrote Dean Hole, the rosarian of beloved memory. And would that we Americans had more like him to spread the love, not only for beautiful Roses, but likewise for the wholesome pastime of planting and caring for the Queen of Flowers.

The average home grounds, as a rule, has several available spots for Roses. An eastern or southern exposure is preferable. The presence of trees is not a disadvantage, providing the Roses are not within reach of the tree roots which will rob the bed of its plant food. Given five or six hours a day of sunshine, preferably in the morning, a good circulation of air (but secure protection from sweeping, withering winds), and good soil with proper drainage, and you have what is needful.

The drainage problem is easily solved. If your soil has a tendency to remain wet or soggy, plant a layer of stones in the bottom of the bed at a depth of 2½ feet. Roses abhor wet feet.

A rich, deep clay loam is the best soil. If it contains grass roots, or is made up of rooted sods, all the better; but any ordinary soil will answer, providing it is well manured.

Climbing Roses, themselves, if given a fence for support, make a good protection from the winds and add beauty to the barrier.

Observing the above suggestions, now let us choose the identical location for our Roses. "Make a picture of your lawn" is a first principle of Landscape gardening. Leave the center open, and plant about and along the edges. Border your walks with flower beds, the base of the porch and the corner across the open sweep of grass, and you and your friends can enjoy a complete and unbroken picture.

After this, place your Roses where they will do best and give you most pleasure. Some varieties, as—for example—the Rugosas and wilder types, serve a very useful purpose when grouped among the Shrubbery (for many other uses see pages 28 to 34); but the bush or garden Roses, such as the Tea, Hybrid Tea, and Hybrid Perpetual varieties, will do best if grouped together and not mixed too much with other plants. The size and shape of the bed may be laid out to suit the location, though it is well to remember, in making large beds and Rose gardens, that you should be able to cut and cultivate the Roses without treading on the loose soil; therefore provide for a pathway between every three or four rows, or else make the beds not more than 4½ feet wide.

THE SIZE AND SHAPE OF YOUR ROSE BED

Beds 4½ feet wide accommodate three rows nicely, and require twelve Roses to every 6 feet. A bed 3 feet wide with two rows will require twelve Roses to every 9 feet; twenty-four Roses if 18 feet long, etc. The above estimate is based upon planting the Roses 18 inches apart each way. 18 inches to 2 feet is about the right spacing for most bedding Roses. In warm countries, where growth is most luxuriant, and for the big, bushy sorts, more room will be required.

Beds of any other shape or size may be laid out to suit one's fancy.

An avenue effect can be produced by planting Tree Roses (see page 11) on either side of a walk, about 5 to 10 feet apart, and in front and between them Everblooming Tea and Hybrid Tea Roses, with a solid row of Dwarf Polyanthas of the Baby Rambler type (see page 26) to form a bright edging along the front. The cost is not great and the effect produced by such an arrangement is really superb.

For a nominal charge, we will suggest planting plans for Rose beds to intending purchasers.

How to Grow Roses

"The love of Flowers is of those few earthly pleasures which age cannot wither."—DEAN HOLE

A Pleasant Hobby. Growing Roses is not an expensive luxury, neither does it require a large amount of hard labor. A love and devotion that begets intelligent, diligent care when needed is the great requisite.

Having chosen the location for our Roses, let us make ready the bed. The simplest and easiest way is to spade the soil deeply and mix with it a good supply of well-decayed stable-manure. But to raise the best Roses it will pay to be more thorough.

Soil. If the soil is naturally well drained, it will be unnecessary to provide drainage. But nothing is more prejudicial to the health of Roses than poorly-drained soil, therefore, if needful, provide drainage. Dig a trench to the depth of 2½ feet, and in the bottom deposit a 4- or 5-inch layer of drainage material so that all surplus water will drain away quickly. It is a good idea to mix with the soil in the bottom of the trench a few broken bones, say a peck, for a bed holding a dozen Roses—they will furnish plant food for the Roses for three or four years to come.

The best soil for Roses is a compost of one-half broken sods or the soil directly underneath filled with fibrous grass roots, and one-half barnyard manure, all thoroughly decomposed.

HOW TO GROW ROSES, continued

Manures. While manure from the cow-stable is probably best, you can draw upon the horse-stable or pig-sty with equal expectation of good results, and "night soil" mixed with dry soil or sand and well composted is unsurpassed. Well-rotted leaves are fair, but too light except for heavy soils. Commercial fertilizers, such as bone or guano, may be used to advantage if handled with discretion. A rule to remember is never to let any "green" or "raw" manure come close to the roots of your Roses, but see that it is buried well beneath the root reach, or applied as a top-dressing.

The best time to apply manures is just as the ground begins to freeze in the autumn; let it serve as a protection over winter and dig it in next spring. It is said that Roses draw most upon the soil when blooming, and we find you can almost see the results from application (when the flower-buds begin swelling) of *liquid manure*, concocted by catching the drain from the manure pile, or one third of a bushel of manure soaked in a barrel of water and applied as a weak tea, not too strong, but frequently—say twice a week. When it is more convenient, a sprinkling of bone dust on the surface before a rain will answer the same purpose. Even with the best care, it may prove necessary at times, say after six or eight years, to renew the Roses or move the bed, adopting the farmer's principle of rotation of crops.

Time to Plant. The best time to plant Roses depends upon where you live. In the southern and Pacific Coast states, autumn or early winter is most favorable. Leaving the Gulf states and coming North to the next tier of states, the same is true, providing you get dormant plants.

North of the line of the Ohio river, only our hardier varieties will withstand the winters, if set out in the fall. The Everblooming kinds—i. e., the less hardy Teas and Hybrid Teas—before they can stand a winter in the open, require a summer's growth in which to become thoroughly established; and, therefore, through the largest area of our great country, as a general rule, spring planting is recommended.

If your ground for Roses has been prepared in the autumn, all the better; if not, begin as soon in the spring as the soil is dry enough to crumble in your hand. After this, dormant Roses may be planted at any time, but Roses in leaf not until mid-April, or any time thereafter.

Treatment on Arrival. When you receive the Roses, give them the greatest care; never expose the roots to the drying action of spring winds for a moment. A plant with bare roots exposed to the dry air is like a fish out of water. Should the plants, through delay in transit, come dried out, as occasionally happens, soak the balls of earth and roots in water; if the stems have dried out, after soaking the ball, bury the whole plant in damp earth for several days. This treatment may put them in good condition while, if they are planted when dried out, there is more danger of their dying.

Planting. When ready to plant, unpack the plants in a shaded place, protected from the wind. Keep the roots covered with damp burlap, moss or other material, until the actual moment of planting; spring winds are so drying that fatal damage may occur through a few moments of exposure. Do not set the plants too deep or too shallow. If planted too deep, the stems will rot off; if too shallow, the plants will grow spindling, will dry out too soon, and high winds will cause them to sway, breaking the roots. It is a good rule to plant them just a little deeper than they formerly grew, with upper roots 1 or 2 inches under ground. Make the hole in which the plant is to be set large enough so that the roots can be spread out naturally. Plants with cramped roots never do so well as those that have plenty of root-room when planted. Use plenty of water when planting, to work the soil among the roots. As the soil is being thrown in about the roots, pour in a pailful of water. When the hole is almost full, pour in another pailful, then set the next plant. In three or four hours, when the surplus water has drained away, finish filling the hole with soil and tramp the earth firmly about the plant. The after-cultivation consists of frequently stirring the surface soil to maintain a dust mulch—about once a week and as soon as possible after each rain will be sufficient.

Unless they be tall or tree Roses, they are likely not to need staking. If the sun be warm, a shading for a few days may be beneficial, also a mulch about the roots.

Mulching. The main object being to retain the moisture rather than to enrich the soil, cultivate the garden once a week up to the middle of July, to maintain a dust mulch; after that, a liberal covering of "long" cow- or horse-stable manure that will not heat will accomplish this purpose best.

Winter Protection. Where the temperature gets below freezing, the less hardy Roses will require protection, and all of them will be the better for it, at least about the roots. Soon after the first frost (see calendar), having hilled up the soil around the stems, cover the Rose beds all over with a 3- or 4-inch layer of good heavy stable manure, and over this a 6- or 12-inch layer of leaves, held in place by the most slightly material available. A 12-inch fence of poultry wire will keep the leaves in bounds nicely. If leaves are not available, straw, corn-fodder and even boxes put over the Roses to shed the rains, will protect from the cold biting winds and the alternate freezing and thawing of early spring sunshine and cold nights; but do not smother the Roses, for if too tightly covered they will die. Remove the covering gradually in the spring when danger from frost is past.

THE ROSE-LOVER'S CALENDAR OF OPERATIONS, continued

JUNE

- 10th. Begin to enrich the Teas and Hybrid Teas with liquid manure. (You'll soon see the result.)
- 20th to 30th. Now the Teas, Hybrid Teas and Climbers begin blooming in abundance. Cut your blossoms freely. Look out for mildew and apply the remedy.

JULY

- 1st. Keep the soil well stirred.
- 4th. Gather all the flowers you can, it is not best for the plants to have them die on the bushes. You should now be reaping a full harvest from the Teas, Hybrid Teas, etc.
- 10th. From now till autumn keep a sharp lookout for signs of fungoid troubles—such as (1) Mildew, (2) Black Spot, or (3) Yellow Leaf, and apply Bordeaux mixture. If any aphid, use Rose nicotine.
- 20th. Now or earlier mulch your Roses with grass cuttings, old manure, or leaves. This will keep them blooming better.

AUGUST

- 30th. Teas and Hybrid Teas bring forth their "Fall Flower Show." As soon as the buds form, remember that Bon Arbor or manure water applied to the roots will help them to produce the blossoms you'll be proud of.

SEPTEMBER

- 10th. Some Hybrid Perpetuals bloom a second time.

OCTOBER

- 15th. Make ready your new beds for next year.

NOVEMBER

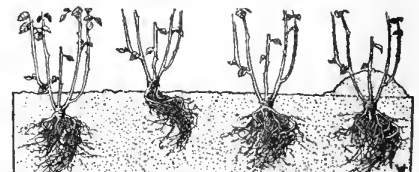

- 15th. After the first frost, begin covering the roots of your Roses with manure, and soon after this complete the protecting of the more tender kinds.

THANKSGIVING DAY

All should be safely nestled in their winter beds.

HOW TO PRUNE YOUR ROSES

Pruning is the art of improving the productive power, and the appearance of a plant. It consists of two distinct operations. 1. The removal of dead, weak, overcrowded, or otherwise useless shoots. Unripe wood which in the spring will usually be found to have discolored pith, caused by the winter frosts, should be cut clean away at the base of the shoot; *Pruning proper*, the shortening of those shoots which are allowed to remain after the thinning-out process has been completed.

The most frequent errors made in pruning are (1) leaving too many shoots when thinning out; (2) pruning severely the shoots of varieties which require little, if any, shortening; (3) pruning lightly the varieties which require severe pruning; (4) leaving Rose plants crowded with shoots and cutting these to a uniform length all over the plant in a similar way that a hedge is clipped.

In thinning out a shoot, it should be either cut clean away to the base of the plant, or to its starting point on the older shoot from which it springs, as the case may be. When the plant has been pruned the shoots should be left as nearly as possible equidistant from each other, and regularly arranged around it so that it presents a well-balanced appearance on all sides.—*National Rose Society's Handbook on Pruning.*

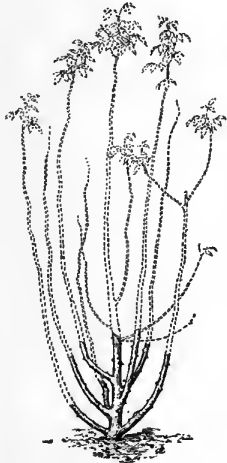

HYBRID PERPETUALS

See pages 38 to 41

The Hybrid Perpetuals should be pruned in March, if weather permits, by the middle of the month.

When pruning, first cut out the weak wood and any branches that cross, then cut back the strong canes to about six eyes, the top one pointing out, and the cut being made one-quarter inch above the bud. If you want only a few big flowers, cut back to only three or four buds. For the big outdoor display, leave four to seven canes two-thirds their growth.

These rules are modified somewhat by the character of the plant. The weaker-growing varieties can be cut back farther than strong-growing sorts. The strong-growing kinds, if cut back too heavily, will run to wood, and in the case of some—Gloire Lyonnaise, for instance—too heavy pruning may kill the plant.

Showing where to prune

TEAS AND HYBRID TEAS

See pages 16 to 24

The Teas and Hybrid Teas will need the same attention as the Hybrid Perpetuals, but there should be as much or more wood left. In case the winter may have killed the canes, cut back to live wood, even if down to the surface of the soil.

You will get lots of bloom from the new canes that will come up.

POLYANTHAS

See page 26

These, as a rule, are very hardy and no pruning is necessary except to thin out the thick growth and remove the last season's flower stems.

BOURBONS AND CHINAS

See page 27

Only moderate pruning is necessary. Simply remove any dead and useless wood.

MOSS ROSES

See page 36

These require moderately close pruning and should have an abundance of manure for successful cultivation

RUGOSA ROSES

See page 35

These do not require pruning after the first season, except cutting away dead wood and keeping the plant shapely. Are also rich feeders.

HARDY CLIMBERS

See pages 28 to 34

These need to be cut back only about one-fifth, and on old, well-established plants the old, enfeebled wood should also be taken out. With this class it is well to bear in mind that it is on the wood made the previous season that the bloom stalks come for the next season's display, therefore, Hardy Climbers should be pruned and trimmed back (if they need trimming) after their blooming period is over and before they make new summer growth.

ROSE ENEMIES

Probably our worst enemy to American Roses is the **Rose Beetle**, which is particularly severe on sandy soils. For this, hand-picking into a vessel of kerosene is effective, or one pound of arsenate of lead in ten gallons of water sprayed on every two weeks through June and July is a preventive. This is also a good remedy for the **Rose slug**, which skeletonizes the leaves. He works from the under side of the foliage, so, when after him, turn the foliage and spray it thoroughly.

Aphides, or **green flies**, attack the plants during May and June, and if not dispatched they multiply rapidly, and suck the life-blood from the leaves. A vigorous spraying of Thompson's Rose nicotine will settle them. **Scale** seldom bothers any except old, neglected shrub Roses. Use scalecide or lime-and-sulphur wash.

Of the fungous diseases, **mildew** is by far the worst and most difficult to overcome. It will be recognized as a white mold, appearing on the foliage, which if not checked will spread.

This is most likely to occur in warm, damp weather, and certain varieties, such as Crimson Ramblers, are more subject to its attacks. Bordeaux Mixture applied at fortnightly intervals is a good preventive. As a cure, flowers of sulphur dusted on the foliage is recommended, also "Grape Dust." For **black spot**, **rust** and other fungous diseases follow the same course.

INSECTICIDES

Thompson's Rose Nicotine is chemically pure nicotine and quick death to insects on Roses. No trouble, no odor, no staining; simply apply as directed with spray pump or plant sprinkler. Small can 30 cts., larger size 65 cts., postpaid.

Sulpho-Tobacco Soap. Another splendid insecticide. Directions for use on every package. 3-oz. cake makes 1½ gallons prepared solution, 10 cts. each; 8-oz. cake makes 4 gallons prepared solution, 25 cts., postpaid.

Hellebore, Powdered White. For the destruction of slugs, worms, caterpillars, etc. Less poisonous than Paris Green and London Purple, and safer to use. Use as a powder or dissolve one ounce in three gallons of water. ½lb. box, 20 cts.; lb. 25 cts.; 5 lbs., \$1; 10 lbs., \$2; 25 lbs. and over at 18 cts. per lb., by express; postpaid, ½lb. 25 cts., for other quantities add 10 cts. extra to express price for every pound, when wanted by mail.

Grape Dust. For mildew, mold or rust mites. 15 cts. lb., 5 lbs. 40 cts., by express only (not prepaid); postpaid, 25 cts. per lb.

Bordeaux Mixture (Dry). For dusting plants affected with mildew, and all fungous diseases. Can be used as a spray. 1 lb. box, 25 cts. (makes 5 gallons liquid); 5 lbs., \$1, by express. If wanted by mail, add 10 cts. per lb. to above prices.

HOW TO SELECT THE RIGHT ROSES

FOR EVERY CLIMATE AND EVERY PURPOSE

"The success of the Rose in this country is very largely a question of the selection of adaptable varieties," says Prof. L. H. Bailey, Dean of Cornell Agricultural College.

Pemberton, in his excellent work on "Roses," says to *beginners*: "State your requirements to a friend who is an expert and leave the selection to him." But we have so grouped and classified the 400 Roses in this book, describing their habits and requirements and telling what may be expected from them, that choosing is made easy—for who of us does not have a personal preference? To assist those who like a good assortment, we offer on pages 15, 25, 41 and 42, made-up sets, combining an assortment of colors and including Roses distinctly superior for the purposes mentioned.

As a Further Guide, We Make the Following Suggestions

For the latitude of Philadelphia, or any temperate zone where the thermometer usually does not get below zero.

All the Roses on pages 10 to 42, except climbers on page 30. Kinds on pages 11 to 29 will be the better for careful winter protection.

In this climate you might as well protect all your Roses while you are doing it. It will not hurt the hardiest, and even they will grow the better for it.

For Colder Climates, where the winters are long and severe and where it will pay you to protect ALL your Roses thoroughly.

All Roses on pages 31 to 41 inclusive, especially the Rugosas, Memorial and Moss Roses. Also the Hybrid Perpetuals and most of the miscellaneous Roses on pages 36 and 37. Only the hardiest of those offered on pages 11 to 29 including such kinds as Clothilde Soupert, Gruss an Teplitz, Baby Rambler, Mme. E. Marlett, Beauty of Rosemawr, Etoile de France, Kaiserin Augusta Victoria, and other Hybrid Teas. These named should have most careful protection.

For Warmer Climates, such as the South and Pacific slope states, where the winters are mild and frost is rare.

All the Roses on pages 11 to 42 inclusive. (Note especially pages 25 and 30.) The Roses on pages 31 to 41 will also thrive in the South, but are less desirable because their season of bloom is not so long.

For Porches, Posts, Archways, Arbors, Trellises, Summer-houses, and for beautifying Boundaries, Fences, etc.

Pages 31, 32, 33 and 34 are especially good for the North. Golden Rambler, Mrs. Robert Peary, Empress of China, Climbing Souv. de Wootton. These four and other kinds on pages 28 and 29 are excellent for this purpose when planted in a temperate climate.

For Cemeteries, Stone Walls, Banks and Rockeries.

Page 31, and also pages 33 and 34 (these thrive even in poor soil and with little care); after these any of the hardier Roses, especially the Hybrid Perpetuals.

Roses for Cutting or "Forcing" or indoor winter bloom. (Such as the professional florists use.)

Such kinds as Bride, Bridesmaid, Killarney, Richmond, American Beauty, Sunrise, Perle des Jardins, Kaiserin Augusta Victoria, Sunburst.

Rose Hedges

Are certainly coming to be more and more popular as people learn about the splendid qualities of the Rugosa Roses (page 35) for this purpose. They are perfectly hardy, make neat, compact, uniform growth, and the thick, bushy mass of glossy, crinkled foliage gives a particularly fine appearance.

In warmer countries, or even in our own latitude, a single row of a free-flowering erect bushy Rose is very satisfactory. For this purpose the Polyanthas (page 26) are especially popular.

3 Grades of C. & J. Own-Root Roses

The different classes of Roses vary greatly in their habit of growth. We grade with especial care, as follows:

ONE-YEAR ROSES

These are vastly superior to the little Roses grown in "thumb-pots"—something we do not have on our place. Our one-year Roses are usually greenhouse-grown but well hardened with strong roots and bushy tops, from 6 inches to 12 inches high, according to the variety. This size, in the Teas, Hybrid Teas, Bourbon and China Roses (pages 12 to 27), under favorable conditions, will produce a surprising display of bloom which more than compensates for the outlay the first year.

TWO-YEAR ROSES

These are larger than the largest Roses put out by some firms. They are our regular two-year size. They are both field-grown and greenhouse-grown, with fibrous roots and well-branched tops from 1 to 2 feet high, depending upon the variety and habit of growth. With a few exceptions, they should bloom abundantly the first season.

★ STAR SIZE ROSES

★ STAR SIZE ROSES ★

Suppose that you should decide that you would like to have on your lawn for the coming season a finer display of Roses than any one in your neighborhood, and then you should write to us to know what Roses we would recommend.

We would answer without hesitation "Follow the Star;" i. e., select the Roses in our catalogue marked with a ★. That star will help show the way to success in your Rose Garden. It will point out the varieties that are in every way reliable and desirable. Furthermore, we can furnish the STAR kinds in extra-large, three-year-old stock; therefore both as regards the variety and its size

THE ★ KINDS ARE THE BEST

Gentlemen:

The Roses arrived safely, and have been unpacked and planted. They were all in splendid condition. I was much pleased with those I ordered last year, but hereafter I shall order none but three-year-old sizes, as they seem worth doubly the difference in price.

I take pleasure in enclosing check for balance.

Very sincerely,

STANDARD, or TREE ROSES

PLEASE ORDER BEFORE APRIL 1

Tree Roses occupy but little ground space and are very imposing when planted among shrubbery or perennials. Along the sides of a walk they form an avenue effect. They can also be planted among or back of a collection of bush Roses—thus making a two-storied Rose bed, as it were.

The plants we offer are exceptionally choice, with sturdy roots and well-balanced tops. For best results the weak shoots should be cut out in the spring before growth starts, and the stronger ones pruned back to three or four eyes each.

THESE ARE THE MOST DESIRABLE VARIETIES

- Frau Karl Druschki.** (H. P.) Snow-white.
- General Jacqueminot.** (H. P.) Best red.
- Hugh Dickson.** (H. P.) Brilliant crimson.
- Mrs. John Laing.** (H. P.) Soft pink.
- Paul Neyron.** (H. P.) Immense flowers; pink.
- Ulrich Brunner.** (H. P.) Rich crimson-scarlet.
- Baby Rambler.** (Poly.) Crimson; continual bloomer.
- Climbing Belle Siebrecht.** (C. T.) For weeping effect; rich pink.
- Clothilde Soupert.** (Poly.) Creamy white; always in bloom.
- Tausendschön.** (H. C.) "Thousand Beauties" Rose.
- Gross an Teplitz.** (H. T.) Reddest of red Roses.
- Mrs. Robert Peary.** (C. H. T.) For weeping effect; creamy white.

INTERNATIONAL JUDGES AND THE PRIZE-WINNER

NOVELTY ROSES

Our President, Mr. Pyle, who was appointed by the City of Paris to represent America at the International Exhibition and judging of New Roses, at Bois de Bologne, 1911, is seen among the Judges in the above illustration (note the X). The photo was taken while they were discussing the merits of the Rose Jonkheer J. L. Mock, in the foreground, also shown in the oval at right-hand side of the picture. This magnificent variety has been awarded two Gold Medals, one Silver Medal, and a number of other awards. See description below.

ORIGINATORS' DESCRIPTIONS

Jonkheer J. L. Mock (H.T.)

A novelty of distinct merit. Color is carmine, changing to imperial pink. The blooms, which are produced with the greatest freedom, are carried on stiff and erect stems, and are of large size, perfect formation and highly perfumed. Growth is vigorous and free. "We can confidently recommend this sterling novelty as a most valuable addition." 1-yr. size, 35 cts., postpaid; 2-yr., 75 cts., by express.

Dutch Beauty (Veluwezoom) (H.T.)

Color is brilliant, dark carmine-rose in the center with golden yellow reflex. A strong grower which makes long, pointed buds and large double flowers. Useful for cut-flowers and also for bedding on account of its free-flowering habit. 1-yr., 50 cts., postpaid; 2-yr., \$1, by express.

Juliet (H.B.)

A distinct novelty which has been universally admired wherever exhibited. Color is old-gold on the outside of the petals, while the inside of the flower is rich rosy red, changing to deep rose as the flowers expand. It is large, full and deliciously fragrant. 2-yr. only, \$1.50 each, by express.

Edward Mawley (H.T.)

This is said to be the finest of all dark velvety crimson Hybrid Tea Roses and a noted American rosarian speaks of it as "the greatest Rose I have ever seen." In size, shape, color and freedom of flowering it has all the good qualities a Hybrid Tea Rose should have. Awarded a Gold Medal, National Rose Society of England. Ready May 1. 1-yr., \$1, postpaid.

Miss Alice de Rothschild (Tea)

Not since the advent of Marechal Niel has any Rose excited such admiration as this truly magnificent variety, which, as seen growing and flowering, was described by leading professional Rose growers as a bedding "Marechal Niel."

The color is rich, deep citron-yellow, which intensifies as the bloom expands. The flowers are very large, full and of perfect form, with high pointed center. Growth is vigorous and erect, free and continuous in bloom. An invaluable exhibition and decorative Rose; delicious fragrance (Marechal Niel perfume); superb in every respect. Ready May 1. 1-yr., 50 cts., postpaid.

Eugene Boulet (H.T.)

This Rose is a very free bloomer and has proved itself valuable as a bedder for the garden. Color is deep crimson to carmine, and the large flowers are so freely produced that they make a sheet of gorgeous color. Ready May 1. 1-yr., \$1, postpaid.

Marquise de Sinety (H.T.)

An exceedingly attractive variety, the color of the young flowers being particularly rich. Buds are carmine-ochre, open flowers ochre-yellow tinted with red, growing lighter as the flower ages. Ready May 1. 1-yr., \$1, postpaid.

Rayon d'Or (H.T.)

Superb. A vigorous growing Rose, of free-branching habit; fine bronze-green foliage which is immune from attacks of mildew. The flower is large, full, of fine globular form; color, yellow-cadmium as the bloom begins to open, toning to sun-flower-yellow when fully expanded. 2-yr., only, \$2.50 each, by express.

NOVELTY ROSES

ORIGINATORS' DESCRIPTIONS

LADY ALICE STANLEY (H. T.) A magnificent Rose. Blooms are very large, very full and of great substance. The color on outside of petals is deep coral-rose; inside, pale flesh, slightly flushed deeper flesh. It is a stout, vigorous grower with free-branching habit and beautiful foliage; every shoot is crowned with a flower bud; deliciously fragrant. Awarded Gold Medal, National Rose Society. 1-yr., 50 cts., postpaid; 2-yr., \$1, by express.

MRS. GEORGE SHAWYER. (H. T.) A very promising Rose in its color and class. The color is a lovely bright shade of pink and the flowers are freely produced on straight, upright stems which shows them off to good advantage on the bush and makes them valuable for cutting. Ready May 1. 1-yr., 50 cts., postpaid.

LADY HILLINGDON. (T.) See color plate on outside front cover. Description and price on page 98.

GRUSS AN AACHEN. (P.) A good keeper and valuable as a pot Rose. Flowers are yellowish pink, shaded red. Double and very free-flowering. Ready May 1. 1-yr., \$1, postpaid.

NATALIE BOTTNER. (H. T.) A cross between *Frau Karl Druschki and Goldelse*. This Rose is pure white and is said to even excel Druschki. The shape of the flower is similar to Kaiserin Augusta Victoria and the blooms are borne on long, strong stems. Very choice. Ready May 1. 1-yr., \$1, postpaid.

LEUCHTFEUER. (H. T.) Color is deep blood-red, shaded with scarlet. An excellent Rose which has the beautiful foliage of the famous "Gruss an Teplitz" and is remarkable for its free-blooming qualities. 1-yr., 25 cts., postpaid; 2-yr., 50 cts., by express.

April 21, 1911.

Gentlemen: As usual, the Roses purchased came in splendid condition. They began to bloom June 1 and continued until October 15—had Roses every day. They are certainly the finest in this vicinity. Very truly yours,

MR. F. F. W., South Sudbury, Mass.

Wichmoss

NEW CLIMBING ROSES

WICHMOSS. (Wich.) See cut. An entirely new type of Rose, being a real Moss Rose Rambler, which received the name "Wichmoss" after both its parents (the Moss Rose Salet × Wichuraiana). The flower is semi-double, with upper side of the petals pink while the reverse is somewhat darker. It is quite fragrant and has the flower stalks and sepals mossed like "Salet." It blooms in clusters. Ready May 1. 1-yr., \$1, postpaid.

CLIMBING AMERICAN BEAUTY. (C. H. P.) See description and price on page 34. Order early, as this variety is scarce and the stock is limited. Orders filled in rotation as received.

MISS MESSMAN. (C. P.) A sport of the constant-blooming Crimson Baby Rambler, but very vigorous in growth. It has retained all the good qualities of this excellent variety with the additional merit of being a climber, and it is already very much in demand. 1-yr., 75 cts., postpaid; 2-yr., \$1.50, by express.

CLIMBING WHITE MAMAN COCHET. (C. T.) See description and price, page 29.

CHRISTINE WRIGHT. (Wich.) See description, page 34.

BARONESS VON ITTERSUM. (H. C.) A fine climber with glossy foliage; very early and free bloomer. Flowers are large and color is brilliant scarlet-crimson. An excellent addition to this class. Ready May 1. 1-yr., \$1, postpaid.

EXCELSA. (Wich.) See description and price on page 33.

COUNT ZEPPELIN. (H. C.) A fine climbing Rose, similar to Tausendschon (see cut, page 34), but the color is vivid pink with a fiery reflex which is very effective. Ready May 1. Price, \$1., postpaid.

SHOWER OF GOLD. (Wich.) A very vigorous grower with deep golden yellow and orange flowers borne in fine trusses. It produces a mass of bloom and the Wichuraiana foliage is beautiful in form, in color and in its high metallic luster. 1-yr., 50 cts., postpaid; 2-yr., \$1, by express.

SUNBURST. (H. T.) A vigorous and healthy Rose, with long, pointed buds and splendid flowers, which are produced on strong, upright stems. The color is an intense orange-copper and golden yellow, extremely brilliant in effect. A splendid variety which does well both for forcing in the greenhouse and for garden planting. Ready May 1. 1-yr., \$1, postpaid.

FOUR EXTRA-CHOICE ROSES

MME. CAROLINE TESTOUT

Four Distinct Colors, All Very Double, Fragrant and Hardy

★ **MADAME CAROLINE TESTOUT**

THE GREAT BEDDING ROSE (see cut)

In the great public gardens in England and on the European Continent, this Rose is extensively planted in beds of from twelve to one hundred plants, and in Portland, Oregon, and elsewhere, it is in great favor for mass planting along the streets. (See cut, foot of page 21.) It is a grand Rose, with large, full flowers and handsome buds which resemble the famous La France Rose, but the color is clear cherry-red, finely edged with silvery rose. A strong grower, and abundant bloomer. One of the best for open ground planting. 1-yr. 15 cts., postpaid; 2-yr., 40 cts., Star size. 65 cts., by express.

★ **HECTOR MACKENZIE (NEW)**

(See cut page 23)

This choice new Hybrid Tea is very large, full and globular in form. Color deep rose, shaded with silvery carmine and crimson. This variety will keep its place among the best of the Hybrid Tea class. Sweetly perfumed and lasts a long time when cut. 1-yr. 25 cts., postpaid; 2-yr. 50 cts., Star size 75 cts., by express.

★ **MADAME MELANIE SOUPERT**

(See cut page 24)

Large double flowers; fine salmon-yellow, suffused with carmine; freely borne on strong branching plants; quite hardy. It is particularly fine in bud form and is highly recommended on account of its delicate, soft coloring which is hard to surpass. 1-yr. 15 cts., postpaid; 2-yr. 40 cts., Star size, 65 cts., by express.

★ **GENERAL MACARTHUR**

A grand everblooming Rose, both buds and flowers are extra-large; color, bright glowing crimson-scarlet; a vigorous grower, every shoot producing a flower of intense brilliant color; very sweetly scented. Unexcelled as a splendid all-round garden Rose. 1-yr. 20 cts., postpaid; 2-yr. 45 cts., Star size, 75 cts., by express.

May 29, 1911

Gentlemen:

Replying to your favor of the 27th, I am able to advise that the shipment of Roses arrived on the 26th. They were in good condition. You certainly had them all beat on size and quality of two-year-old Roses.

Yours very truly,

W. S. C., Detroit, Michigan

We prepay express charges on all orders for \$5 and over bought from this book; on express orders under \$5, add 10 per cent and we will prepay express

Gentlemen:

April 7, 1911

Enclosed you will please find a check to your order for \$100, also an order for list of Roses and plants which I would like to have you send me. The Roses we now have growing around our house, some 280 in number, are a standing advertisement for the house of Conard & Jones.

Very truly,

Dr. M. B. S., Utah

C. & J. RELIABLE COLLECTION

Equipped with the benefit of a half a century's experience in intelligent Rose-growing, by our faithful attention to the wants of customers, we have won a confidence that we consider one of the most valuable assets of our business. Our appreciation of this confidence, therefore, makes us feel especially the responsibility of selecting from among 200 or 300 Teas, Hybrid Teas and Chinas, 12 Roses which we can recommend as the most reliable for general planting. There are so many beautiful Roses nowadays that it would not be just to say of any 12, "these are the best." But we do say that in this set of 12 each one contains the qualities of a high-grade Rose. They are all strong, vigorous growers, bloom abundantly, and all are among the hardiest in this everblooming class. Just enough in this collection to fill a bed 3 feet wide by 8 feet long. They will bloom the first season and every succeeding season, all summer long, even the one-year size; best about them, however, is the beauty of the flowers, in form, color, fragrance, every way; but read the descriptions, and note that most of them are illustrated elsewhere. If planted in your garden you'll like them, we are sure.

12 SPLENDID EVERBLOOMING ROSES. \$1.25 Postpaid

★ **Radiance.** (See cut page 23.) Color a brilliant rosy carmine displaying beautiful opaline-pink tints in the open flower. The form is fine; flower large and full with cupped petals. Splendid healthy foliage. 1-yr. 25 cts., postpaid; 2-yr. 50 cts., Star size 75 cts., by express.

★ **Kaiserin Augusta Victoria.** (See cut page 22.) This grand Rose is still unsurpassed in beauty. Extra-large, finely formed flowers, borne singly on strong, upright stems; very deep, full and sweet; color, pure white, shading to lemon; a free bloomer. One of the finest Roses. 1-yr. 15 cts., postpaid; 2-yr. 35 cts., Star size 65 cts., by express.

★ **Hermosa.** Blooms in clusters all season; clear, bright pink, very double and fragrant; quite hardy. 1-yr. 15 cts., postpaid; 2-yr. 40 cts., Star size 65 cts., by express.

★ **Etoile de Lyon (Star of Lyons).** (See cut page 18.) Color is clear bright golden yellow; the plant is a strong, robust grower and very hardy; makes beautiful buds and is very double and sweet. 1-yr. 15 cts., postpaid; 2-yr. 40 cts., Star size 65 cts., by express.

★ **Ecarlate.** A superb and distinct novelty with color an extremely brilliant scarlet. It is a robust grower with medium-sized, semi-double blooms which are produced freely. A splendid Rose, higher in color than Liberty or Richmond. 1-yr. 25 cts., postpaid; 2-yr. 50 cts., Star size, 75 cts., by express.

★ **Etoile de France (Star of France).** (See cut page 24.) Makes beautiful large, pointed buds and extra-large fully double flowers, 3½ to 4½ inches across. Color, intense, brilliant crimson; very fragrant. 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

★ **Blumenschmidt.** (See cut page 18.) Flowers pure citron-yellow, outer petals edged with rose tint. Vigorous; good yellow Rose. 1-yr. 15 cts., postpaid; 2-yr. 40 cts., Star size 75 cts., by express.

★ **Helen Gould.** (See cut page 19.) Flowers are extra large, perfectly double and deliciously sweet; color is rich vinous crimson, elegantly shaded and exceedingly beautiful. It is entirely hardy and needs no protection. 1-yr., 20 cts., postpaid; 2-yr., 45 cts.; Star size, 75 cts., by express.

★ **Souv. de Pierre Notting.** (See cut page 18.) Flowers are very large, perfectly full and double. Colors are distinct; rich orange-yellow, dashed and bordered with soft carmine-rose. Has received six Gold Medals and Grand Prizes. 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

★ **Gross an Teplitz** (See cut page 23.) The color is dark rich crimson passing to (Virginia R. Cox, or Crim. Hermosa) velvety fiery red—one of the very brightest colored Roses we know. Flowers large, full and sweet; blooms constantly the whole growing season. 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 65 cts., by express.

★ **Marie Van Houtte (The Gem).** Flowers are extra large, very double, full, and deliciously sweet-scented. The color is a lovely canary-yellow passing to creamy white, and beautifully shaded with rich pink. 1-yr. 15 cts., postpaid; 2-yr., 35 cts.; Star size, 65 cts., by express.

★ **Wellesley.** The flowers are extra large and full. Color, bright clear rose-pink, reverse of petals silver-rose; a vigorous grower, bearing its flowers on tall, stiff canes; very free bloomer. 1-yr., 15 cts., postpaid; 2-yr. 40 cts.; Star size, 65 cts., by express.

Gentlemen: "HONEST, PROMPT, GENEROUS"
I'd like you to know what a pleasure the Roses we got from you have been to us. We have grown Roses for thirty years, and many of them came from your house. The last ones, especially, that you sent us, have done unusually well. Our Rose garden has been the delight of our entire neighborhood.
The Hybrid Perpetual Roses were a sight to behold all through June and a part of July, and there has not been a day since that we could not gather a fine bouquet of Tea Roses—the latter all came from Conard & Jones. I always recommend you to my Rose-loving friends, as honest, prompt, generous, and careful dealers.
MRS. A. V. MCA., Lansing, Mich.

Gentlemen: "GREAT SATISFACTION GIVEN"
Having received about 25 Rose bushes the past two years from your nurseries, I wish to tell you the great satisfaction they have given. They started to bloom at once and are never without the whole season and they have from five to ten buds on most every bush at the present time. I have had congratulations from some of the best Rose growers in our city, both on the healthy condition of the bushes and the fine bloom. I wish to thank you for the interest you took in my order and the fine healthy bushes I received. I wish to share my congratulations with you, and I can assure you I never forget to mention the Conard & Jones Co., when talking Roses with my friends. Yours truly,
Wm. D., Trenton, N. J.

THE FOUR FAMOUS COCHET ROSES

These are among the very finest hardy everblooming Roses in cultivation. They stand at the head of the list and are not surpassed by any others in beauty or productiveness, and no difference what other Roses you have, you want the Four Great Cochet Roses also. They should be included with every order.

★ PINK MAMAN COCHET

This superb Rose is well known as a queen among Roses, one of the best and most beautiful varieties ever grown, and quite hardy. The flowers are of enormous size, very full and of great depth and substance. Color, rich coral-pink, elegantly shaded with rosy crimson; has broad, thick shell-like petals and makes superb long-pointed buds; immense bloomer, and flowers the whole season. Deliciously sweet and a hardy, vigorous grower. It ranks among the very finest hardy ever-blooming Roses. Price, 1-yr., 15c., postpaid; 2-yr., 35c.; Star size, 65c., by express.

★ RED MAMAN COCHET

(Mrs. B. R. Cant)

A most valuable hardy everblooming Rose. It is a healthy, vigorous grower, throwing up strong shoots and producing great masses of splendid roses the whole growing season. Flowers are extra large, perfectly double and deliciously sweet. Color, bright rose-red, elegantly shaded and exceedingly beautiful. Price, 1-yr., 20c., postpaid; 2-yr., 45c.; Star size, 75c., by express.

★ WHITE MAMAN COCHET

A splendid Rose; has all the good qualities of Maman Cochet, but is pure snow-white, equally large and fragrant, hardy and productive. Price, 1-yr., 15c., postpaid; 2-yr., 35c.; Star size, 65c., by express.

We deliver free all orders from this book for \$5 and over. With orders less than \$5 add 10 per cent and we will pre-pay express.

This little Miss enjoys Cochet Roses

★ YELLOW MAMAN COCHET

(Mlle. Helena Gambier)

A grand everblooming Rose; color, lovely canary-yellow, with deep peachy red center, changing to creamy pink as the flowers open. It makes a neat, handsome bush, blooms abundantly all through the season, and flowers are large, very double and sweet. Price, 1-yr., 20c., postpaid; 2-yr., 45c.; Star size, 75c., by express.

EVERBLOOMING TEA ROSES

ALL ARE DELICIOUSLY FRAGRANT

The Roses in this class are highly valued because of their fine colors and exquisite tea fragrance. They will bloom freely from June until November. If thoroughly established during the summer, they will, with few exceptions, prove hardy here, with protection. We wish to remind our friends of the superior quality of these plants; they are not the small slips so often sent out, which have been forced under a high temperature in little "thumb pots" into a quick, unhealthy growth, but these plants are the product of years of experience and our own improved method of culture, insuring the greatest possible vitality and abundance of bloom. See pages 18 and 19 for other colors.

THIS AND THE FOLLOWING TWO PAGES INCLUDE OUR COMPLETE LIST OF TEA ROSES, EXCEPT NOVELTIES ON PAGES 12 AND 13

Killarney (1-5 natural size)

★ KILLARNEY

The Lovely Irish Hybrid Tea Rose

Flowers are rich imperial pink on a very large bush; a vigorous grower, free bloomer and hardy. This splendid Irish Hybrid Tea Rose created a sensation when first introduced, and has certainly come to stay. It is a strong, vigorous grower and perfectly hardy, having stood out here during several winters without protection. There is no Rose we know of in this class that blooms more freely than Killarney and the large size of the flowers and substance of petals are remarkable, petals often measuring 2½ inches deep. The buds are large, long and pointed, and to add to their charm, they are intensely fragrant. The color is exquisite, a brilliant imperial-pink, almost sparkling and beautiful beyond description. Price, 1-yr., 25c., postpaid; 2-yr. size, 50c.; Star size, 75c., by express.

C. & J. LA FRANCE SET

★La France. This is probably the most popular Rose in cultivation. Both buds and flowers are of lovely form and grand size, exceedingly sweet; color fine peach blossom, elegantly clouded with rosy flesh. Begins to bloom while very small, and continues bearing until stopped by freezing weather. 1-yr., 20c., postpaid; 2-yr. size, 40c.; Star size, 65c., by express.

★Red La France. This is a superb Rose, belonging to the Hybrid Tea class, and closely resembling La France, but much deeper in color and a better grower; the flowers are extra large, exceedingly beautiful, very double and full, and deliciously sweet; color, lovely rose-pink, very deep and exquisitely shaded; a constant bloomer. 1-yr., 15c., postpaid; 2-yr., 40c., Star size, 65c., by express.

★White La France. A seedling of La France; extra large, full, deep pearly white flowers, delicately shaded with soft rose; exquisitely beautiful and delightfully fragrant. 1-yr., 15c., postpaid; 2-yr., 40c.; Star size, 65c., by express.

The Striped La France. An elegant new Rose, closely resembling La France in form and substance, but the flowers are distinctly striped with pearl-white and satin-rose. 1-yr., 15c., postpaid; 2-yr., 40c., by express.

Yellow La France. A most constant and abundant bloomer; color, bright canary-yellow, quite large, full and fragrant; highly recommended for bedding and house culture. 1-yr., 15c., postpaid; 2-yr., 40c., by express.

CHOICE EVERBLOOMING HYBRID TEA ROSES

This we believe is the most popular class of Roses now in cultivation. These varieties are the result of a union between the Everblooming Teas and the hardy Hybrid Perpetual class, thus combining the exquisite richness of coloring and beauty of form in the one with the hardiness, vigorous growth and pungent fragrance of the other.

It is rather exceptional in the Roses of any other class to find so many excellent qualities, and when you add the splendid feature of blooming so freely and continuously throughout the season, it is easier to understand why these Hybrid Tea Roses are so popular.

HARDY POLYANTHA, or POMPON ROSES

FOR PERMANENTLY EDGING WALKS OR FLOWER BEDS

A spray of Baby Rambler

Grows only 18 inches
Splendid bush form
Blooms ALL the time

We have repeated demands from our customers for something suitable to edge their flower beds, and the question is answered right here by these "Edging" Roses, not only because of their brilliant color, beauty and fragrance, but they also keep up a splendid show all Summer through, and are particularly appropriate for bordering not only Rose beds, but flower-beds of all kinds.

In this class are different varieties of Polyanthas, such as the Baby Rambler types, the small-flowered or Standard Polyanthas and the large-flowering kinds, such as the famous, constant-blooming Clothilde Souperet, Marie Pavie and Snowstorm. All are suitable for bordering paths where a continuous show of bloom is desired, but for edging flower-beds the bright-blooming, dwarf-growing Baby Rambler types are the most desirable. We grow them in quantity to meet the large demand there is for them—and will be glad to quote special prices by the dozen or hundred as desired.

THE BABY RAMBLER TYPES FOR BRIGHT EDGING, ETC.

THEY BLOOM CONTINUOUSLY

- ★**RED BABY RAMBLER.** (Madame Norbert Levavasseur). Grows 18 to 24 inches. The flowers are borne in clusters of 20, 30 or more, in every way resembling the blossoms of the Climbing Crimson Rambler. Always in bloom. 1-yr., 20 cts., postpaid; 2-yr., 45 cts.; Star size, 75 cts., by express.
- ★**PINK BABY RAMBLER** (Baby Dorothy, or Maman Levavasseur). Beautiful bright pink; grows about 20 inches high and blooms incessantly. 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 65 cts., by express.
- ★**WHITE BABY RAMBLER.** Bushes candelabra-shaped and each branch bearing from 15 to 50 little flowers, creamy white, passing to snow-white. 1-yr., 20 cts., postpaid; 2-yr., 45 cts.; Star size, 75 cts., by express.

THREE NOVELTIES

- ★**ORLEANS ROSE.** The best Polyantha Rose ever raised. It is dwarf, bushy and exceedingly free-flowering. Color, brilliant geranium-red, suffused with rose, center white, making a charming combination. Awarded a Gold Medal. (See illustration in color on inside back cover.) 1-yr., 25 cts., postpaid; 2-yr., 50 cts.; Star size, 75 cts., by express.
- PHYLLIS.** Beautiful cerise-pink. Flowers are borne in great clusters on a symmetrical little bush, 12 to 18 inches high. 1-yr., 15 cts., postpaid; 2-yr., 35 cts., by express.
- MRS. TAFT.** Color is rosy crimson. Habit is similar to Red Baby Rambler. Splendid for massing or for borders. 1-yr., 20 cts., postpaid; 2-yr., 45 cts., by express.

Constant Blooming Bourbon and China Roses

Maddalena Scalarandis

This is a class of Roses that no real Rose-lover can afford to miss; some of them are particularly famous for the large size, beauty and brilliant colors of blossoms. They bloom freely, flowering not only once, but all summer through. As a class they are moderately hardy, and if protected should live out over winter in this latitude. They like rich soil and should be pruned lightly. Do not hesitate to cut all the blossoms you wish; such treatment is good for the plants and encourages more bloom.

AGRIPPINA. A beautiful Rose of brilliant fiery red; double and sweet. 1-yr., 10c., postpaid; 2-yr., 30c., by express.

ARCHDUKE CHARLES. Rich bright red; large, full and double, entirely hardy, excellent for open-ground planting, as it is a strong, hardy grower and a sure bloomer. 1-yr., 15c., postpaid; 2-yr., 35c., by express.

BEAUTY OF ROSEMAWR. Another season's trial has proved this one of the very best Hardy Everblooming Roses yet produced. It is a healthy, vigorous grower, makes a strong, handsome bush, and blooms all the time; the flowers are large, delightfully fragrant, and perfectly double, with fine overlapping petals and raised center; color a lovely shade of rich carmine-rose, finely veined with creamy white. A splendid garden Rose, far superior in every way to the old-time Roses so often asked for, and sure to be a great favorite as soon as known. 1-yr., 25c., postpaid; 2-yr., 50c., by express.

Gentlemen:

Several years ago I sent to you for some Roses, and one of them has grown six or more feet tall, and the rosy pink Roses are the envy of all who see them. It was called the Beauty of Rosemawr.—Respectfully, Mrs. C. C. R., Clarksburg, W. Va.

★**BURBANK.** One of Luther Burbank's productions and an excellent Rose. Flowers 3 to 3½ inches across, very double and sweet; bright rose-pink, shading to silver-rose. 1-yr., 15c., postpaid; 2-yr., 35c.; Star size, 65c., by express.

★**DOUGLAS.** This fine variety is a strong bushy grower and very constant bloomer; color deep rich cherry-red, very bright and handsome; always shows up well. 1-yr., 10c., postpaid; 2-yr., 30c., by express.

★**HERMOSA.** Well known as one of the best for general planting; blooms in clusters all season; clear, bright pink, very double and fragrant; quite hardy. 1-yr., 15c., postpaid; 2-yr., 40c.; Star size, 65c., by express.

★**LUCULLUS (Red Pet).** The "black Rose." Splendid rich crimson, extra full and double, and a constant and abundant bloomer; quite hardy and fine for garden planting. 1-yr., 10c., postpaid; 2-yr., 30c., by express.

★**MADDALENA SCALARANDIS.** Flowers are extra large and beautiful, and its productiveness is truly astonishing; color, dark rich rose on deep yellow ground, elegantly flamed scarlet and crimson. 1-yr., 15c., postpaid; 2-yr., 35c., Star size, 65c., by express.

★**MME. EUGENE MARLITT.** See Red Rose in star on color plate.

★**QUEEN MAB.** Color, a lovely shade of soft rosy apricot, center shaded orange, outside petals violet-rose. 1-yr., 15c., postpaid; 2-yr., 35c., by express.

★**QUEEN'S SCARLET.** Rich velvety scarlet, very bright and handsome; strong upright grower; constant bloomer. 1-yr., 15c., postpaid; 2-yr., 35c., by express.

★**SANTA ROSA.** The flowers are large, round, full and sweet; the color is rich rosy pink, shading to coppery red. 1-yr., 10c., postpaid; 2-yr., 30c., by express.

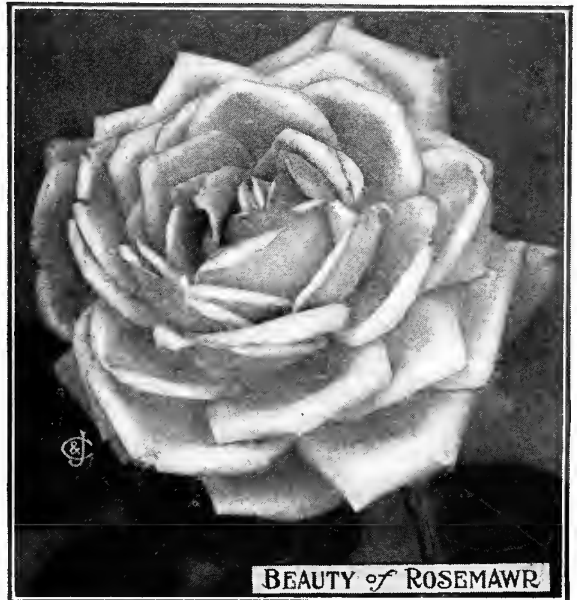

★**SOUVENIR DE LA MALMAISON (Queen of Beauty and Fragrance).** The color is lovely creamy flesh, with bright rose center, elegantly shaded. The flowers are very large, perfectly double and deliciously sweet. 1-yr., 15c., postpaid; 2-yr., 35c.; Star size, 65c., by express.

BEAUTY OF ROSEMAWR

HARDY EVERBLOOMING CLIMBING ROSES

Gentlemen:
We are growing flowers that came from you, and are delighted. We have fourteen Roses bought last year, and all are growing fine. Our Mrs. Robert Peary is simply fine.
Mrs. D. H. H.
Webster Springs,
W. Va.

These are the Roses that will add so much to the beauty of your home; especially for porch or trellis, or for covering an arbor or archway.

Your success and satisfaction will depend mainly upon two things: get kinds suited to the conditions of your place and climate, and then give them plenty of good, rich soil deeply mellowed.

There are two distinct classes of Climbing Roses:

1. The hardiest (including such as Philadelphia, Dorothy Perkins, etc., see pages 32 to 34), which burst forth into magnificent masses and clusters of bloom about the middle of spring, and continue beautiful for three to six weeks on into summer.

2. The other class are the Climbing Tea, Hybrid Tea or Everblooming Roses, most of them hardy in this latitude with protection. If favorably located they often bloom luxuriantly from May until November. See this and following two pages.

THREE ATTRACTIVE NOVELTIES

★ Flower of Fairfield The New Everblooming Crimson Rambler

A sport from the notable Crimson Rambler, which it resembles in every respect, except that it continues in bloom longer. Its European growers claim that it produces a marvelous succession of brilliant crimson clusters from early spring until late autumn. Order early as this variety is in great demand. Price, 1-yr., 25c., postpaid; 2-yr., 50c.; Star size, 75c., by express.

NEW CLIMBING KILLARNEY. A climbing type of the famous pink "Killarney" (see illustration on page 20). It is identical with the parent variety except that it is of the climbing habit of growth. Color is a most exquisite shade of rich imperial pink; deliciously fragrant. It is a strong, rapid grower. A splendid addition to the class of hardy Everblooming Climbing Roses. Price, 25c., postpaid; 2-yr., 50c., by express.

★ **Mme. Jules Gravereaux.** An exceptionally fine variety. Long, pointed buds and extra-large double flowers of chamois-yellow with rosy peach center. Grows 7 to 10 feet high, and blooms freely until stopped by freezing weather. Price, 1-yr., 20c., postpaid; 2-yr., 40c.; Star size, 75c., by express.

Four Everblooming Porch Roses

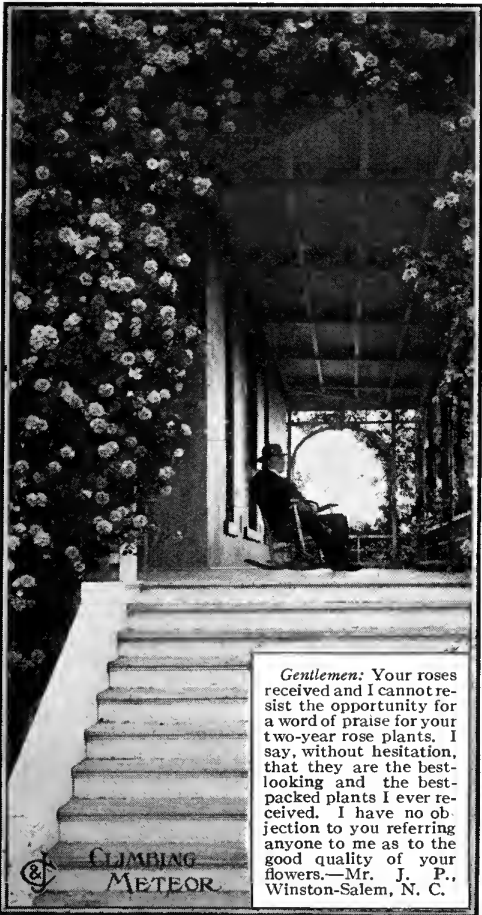

FOUR COLORS

★ **Mrs. Robert Peary (White).** "Climbing Kaiserin Augusta Victoria." One of the very best of this class; a strong vigorous grower, throwing up canes 6 to 8 feet high in a season. Flowers extra large and sweet; color, rich creamy white, delicately tinted with lemon. Blooms constantly the whole season. Price, 1-yr., 15c., postpaid; 2-yr., 40c.; Star size, 75c., by express.

★ **Golden Rambler (Yellow).** "Alister Stella Gray." This is a very beautiful variety. The color is rich apricot-yellow, soon changing to pure white, with bright yellow center. The flowers are large, full and fragrant, and it is a most constant and profuse bloomer; a bush on our own grounds, after blooming all summer and fall, had 75 to 100 buds and flowers on at middle of November. Plant near wall or trellis where it can have some shelter and support. Price, 1-yr., 15c., postpaid; 2-yr., 35c.; Star size, 75c., by express.

★ **Climbing Meteor (Red).** One of the finest bright crimson hardy Everblooming Climbing Roses ever introduced; makes exquisite buds and large, beautifully shaped flowers of the true Jacqueminot color. Price, 1-yr., 15c., postpaid; 2-yr., 35c.; Star size, 65c., by express.

★ **Empress of China (Pink).** A hardy, rapid-growing Rose of graceful, twining habit and few thorns. Bears fragrant flowers of soft rich red, shading to cherry-pink; very pretty. Price, 1-yr., 15c., postpaid; 2-yr., 35c.; Star size, 75c., by express.

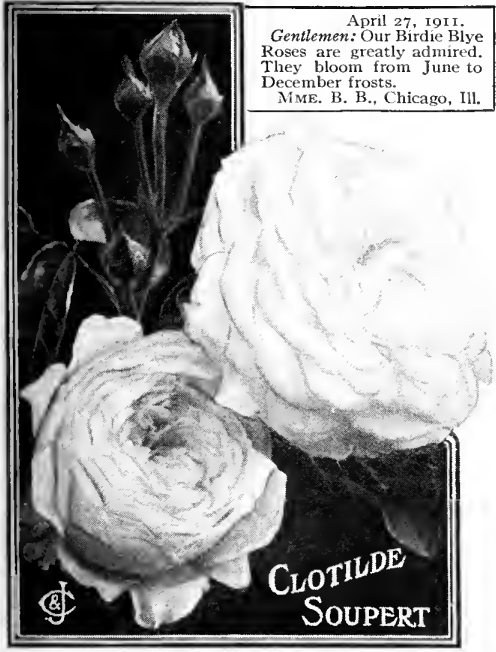

Gentlemen: Your roses received and I cannot resist the opportunity for a word of praise for your two-year rose plants. I say, without hesitation, that they are the best-looking and the best-packed plants I ever received. I have no objection to you referring anyone to me as to the good quality of your flowers.—Mr. J. P., Winston-Salem, N. C.

Gentlemen:

I wish you could see the Roses you sent in 1910. I am certainly proud of them and know you would be if you could see them. Some of my neighbors have told me they would like to send for some when I order again, so I am in hopes of sending for quite a few plants this year.

I certainly consider my plants as \$5 well spent, they have given that amount of pleasure the first season, and just think of the seasons yet to come!
Yours truly, H. A. W., Stratford, Conn.

Offer No. 130a. 1 each of the above 9 Roses, all different, one-year size for \$1, postpaid. In two-year size the 9 for \$2.75, by express.

Hardy Memorial, or Wichuraiana Roses

WILL BLOOM LUXURIANTLY IN OUR COLDEST CLIMATE

They will climb when trained, or if left alone they creep along the ground as closely as an ivy and make a dense mat of shiny dark green foliage. The leaves are of leathery texture, practically insect proof, and remain green on the plants nearly all winter. They bloom in profusion during June and July, and the single ones bear red berries in the autumn. Entirely hardy, and when once planted take care of themselves. They are excellent for training over graves (hence called Memorial Roses) or over rough ground, rocks, stumps or banks.

★**ALBA RUBRAFOLIA.** *The Red-leaved Memorial Rose.* Has large, double, pure white flowers and bright shining evergreen foliage, tinged with bronzy red. May be used as a creeping, climbing or weeping Rose. Price, 1-yr., 15c., postpaid; 2-yr., 35c.; Star size, 60c., by express.

EVANGELINE (New). A vigorous cluster Rose with single flowers, 2 inches in diameter. Color, white with tips of petals pink; deliciously fragrant. Price, 1-yr., 15c., postpaid; 2-yr., 40c., by express.

★**HARDY MARECHAL NIEL** (Gardenia). The finest hardy yellow climbing Rose yet produced. Deep rich golden yellow (almost the exact color of Marechal Niel), passing to creamy white; large flowers borne in great profusion on strong, vigorous bushes as hardy as an oak. Price, 1-yr., 15c., postpaid; 2-yr., 35c.; Star size, 60c., by express.

MANDA'S TRIUMPH. *Double White Memorial.* The flowers are medium-sized, perfectly double to the center, pure white and very fragrant. The plant is an erect grower; has handsome dark green foliage; is entirely hardy and bears its lovely flowers in large clusters. Price, 1-yr., 15c., postpaid; 2-yr., 40c., by express.

Sundial and archway beautified

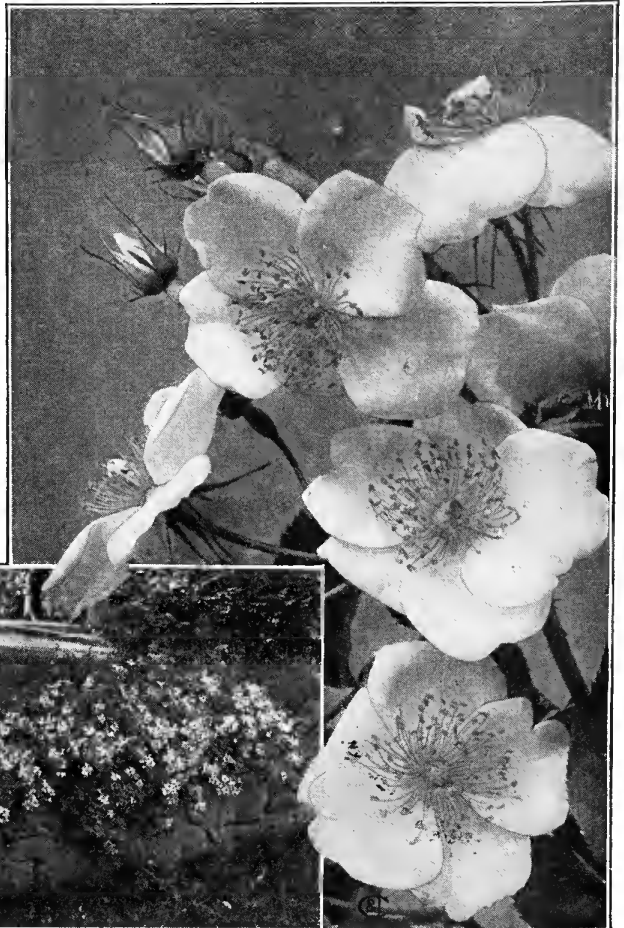

PROF. C. S. SARGENT. A beautiful Rose of delicate buff with center of deep golden yellow; flowers are very double and 2½ inches in diameter; delightfully fragrant. Price, 1-yr. 25c., postpaid; 2-yr., 50c., by express.

SILVER MOON (New). Flowers are *extra large* and freely produced on long, strong stems; fine for cutting. Color is silvery white with a mass of golden yellow stamens in center of the flower, which is a very attractive feature. Fragrance delicious. Foliage is a beautiful bronzy green and does not mildew. Price, 1-yr. only, 35c., postpaid.

★**UNIVERSAL FAVORITE.** *Double Pink Memorial.* Perfectly double flowers of medium size and borne in large clusters. Color a clear bright pink. Makes a charming companion for Manda's Triumph. Price, 1-yr., 15c., postpaid; 2-yr., 35c.; Star size, 60c., by express.

WICHURAIANA. *The Hardy Single White Memorial Rose.* Hardy as grass, will grow in sun or shade, poor ground or rich. Makes a beautiful display of blossoms, single and very large (often 5 or 6 inches around), pure satiny white with bright golden stamens in center. Should be in every collection. See cut. Price, 1-yr., 15c., postpaid; 2-yr. 35c.; extra 2-yr., 50c., by express.

PHILADELPHIA RAMBLER

Considered the most magnificent hardy Crimson Climbing Rose in existence. Splendid for hedges.

★ The New Hardy Crimson Rambler "PHILADELPHIA"

Introduced by THE CONARD & JONES CO.

Splendid flowers, 2½ inches across and perfectly double; borne in grand clusters, completely covering the whole bush. Color, pure deep rich crimson, far brighter and more intense than the old "Crimson Rambler." The "Philadelphia" holds its bright dazzling color a long while, which adds greatly to its value. Has handsome foliage, and is a most abundant bloomer. Undoubtedly the brightest of all hardy crimson climbing Roses yet produced; splendid for covering porches, trellises, screens, fences, etc. Is a strong, quick grower, perfectly hardy and needs no winter protection. Makes a great sensation wherever seen. People declare they never saw such immense quantities of Roses borne on one bush, or any flowers of such bright, dazzling crimson color. Frequently used in great quantities, because, either as a hedge, or on fences, it makes a magnificent show.

"Philadelphia" Rambler was awarded a "Certificate of Merit" at the great London Temple Flower Show, which is the finest of all the English horticultural exhibitions.

Price, 1-yr. size, 20c. postpaid; 2-yr. size, 40c.; star size, 75c.; extra-large sizes, \$1 and \$1.50 by express

★ DOROTHY PERKINS

(Pink)

Grows 10 to 15 feet in a season. Flowers are perfectly double with petals crinkled, and color a clear shell-pink, borne in immense clusters that cover the bush for several weeks in the spring. Blooms just in time for June weddings. (See cut.) Price, 1-yr., 15c., postpaid; 2-yr., 35c.; Star size, 75c.; extra-large size, \$1, by express.

★ EXCELSA (New)

The Red Dorothy Perkins

A distinct variety in form, color and habit. The color is an intense crimson-maroon, with tips of the petals tinged scarlet. Flowers are large and double, produced thirty to forty on a stem, and almost every eye on a shoot produces a cluster of bright blossoms. Price, 1-yr., 25c., postpaid; 2-yr., 50c.; Star size, 75c.; extra large size, \$1, by express.

IN MICHIGAN

Gentlemen:

. . . Dorothy Perkins produced during the past summer and fall more than a dozen large canes; three or four measured over 20 feet of entirely new growth, while the others grew from 6 to 12 feet. They are not "long drawn out," but good heavy canes.

Yours truly,
W. D. C.,
Big Rapids, Michigan.

IN PENNSYLVANIA

Dear Sirs:

Two years ago I sent for your set of 4 Ramblers, and last year they were fine; the Dorothy Perkins cannot be beaten. It must have grown 20 feet last season; bloom is perfect.

Mrs. S. K.,
Duncannon, Pa.

★ WHITE DOROTHY (New)

A pure white sport of the well-known Dorothy Perkins, of same habit of growth and freedom of flowering; a splendid companion for the pink variety, as it flowers at the same time. A most valuable addition to this class. Awarded Gold Medal National Rose Society and Award of Merit, Temple Show, England. Price, 1-yr., 20c., postpaid; 2-yr., 45c.; Star size, 75c.; extra large size, \$1.50 by express.

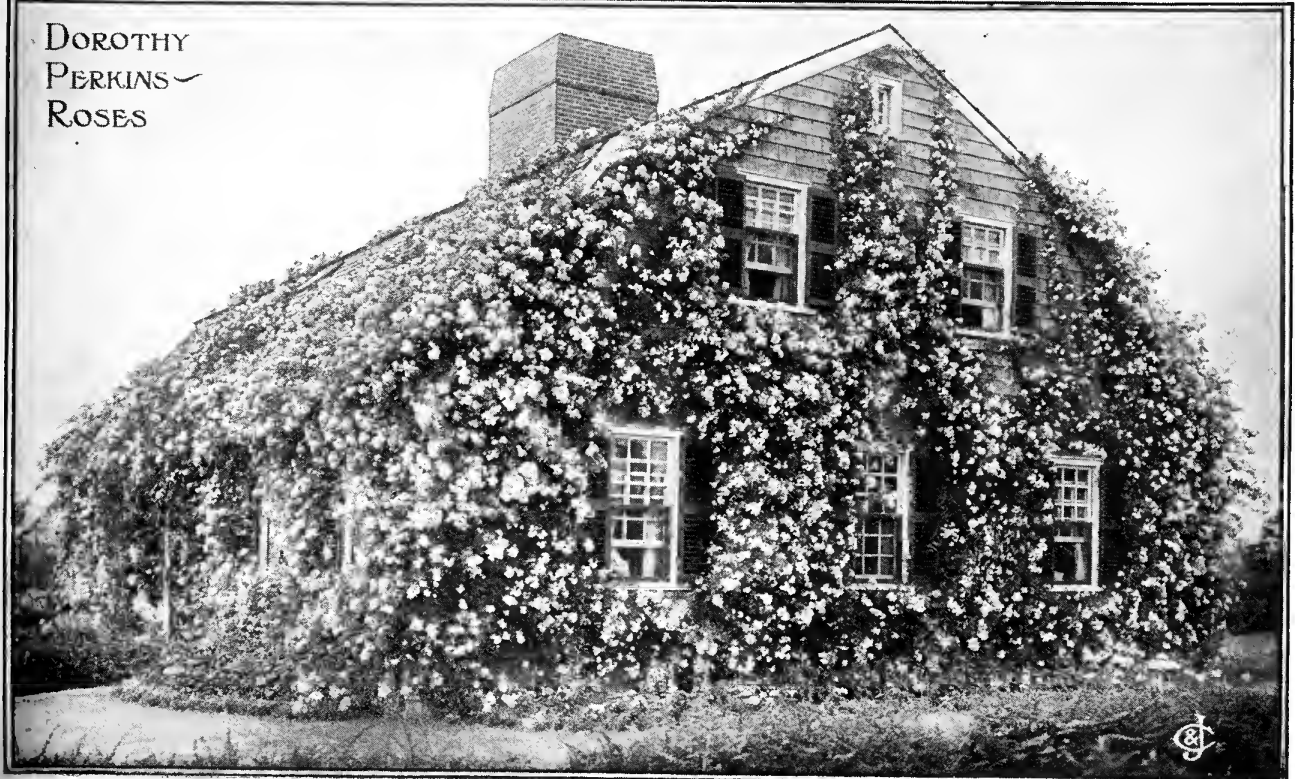

★ ALBERIC BARBIER

(Yellow)

A very strong grower; leaves dark green, bronzy red in the spring and glossy; flowers in clusters, semi-double or double, creamy white with canary-yellow center. Flowers early. Price, 1-yr., 15c., postpaid; 2-yr., 40c.; Star size, 75c.; extra large size, \$1, by express.

DOROTHY PERKINS ROSES

Dorothy Perkins Roses, as they grow and bloom in cold New England

Meritorious Hardy Climbers

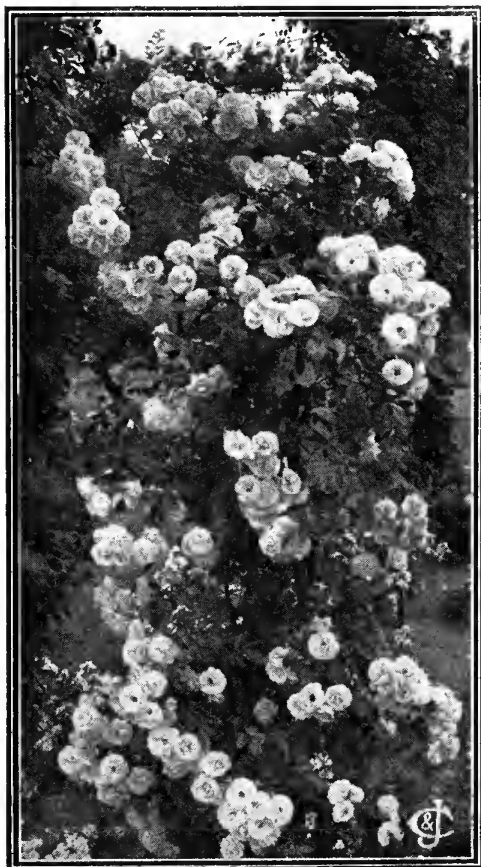

★**American Beauty, Climbing.** (New.) This is the famous American Beauty Rose which is now presented in climbing form. It is a cross between American Beauty and a hardy climber which was especially noted for its fine foliage. This variety retains the deep pink to crimson color, the exquisite fragrance and the hardiness of the parent plant, and will produce a much greater quantity of flowers in June than the bush American Beauty. Price, 1-yr., 50c., postpaid; 2-yr., \$1; Star size, \$2, by express.

★**Christine Wright.** (New.) A strong climbing Rose with large, thick, leathery foliage, which is proof against mildew. It has the same habit of growth as Climbing American Beauty, and the large bright, clear pink flowers make it a good companion for that variety. The plant is a perfect mass of bloom in June and flowers occasionally during the summer. Price, 1-yr., 75c., postpaid; 2-yr., \$1.50, by express.

★**Dr. W. Van Fleet.** (New.) Color a remarkably delicate shade of flesh-pink on the outer surface, deepening to rosy flesh in the center. The flowers are full and double, and when open run 4 inches and over in diameter. The center is built high and the petals are beautifully undulated and cupped. A fine Rose for cutting, as the stems run from 12 to 18 inches. The foliage is a pleasing shade of bronze-green; large and glossy and apparently disease-proof. It is a most abundant bloomer. Price, 1-yr., 25c., postpaid; 2-yr., 50c.; Star size, \$1, by express.

IRONCLAD RUGOSA ROSES

Rugosa Roses and their hybrids seem just suited for our North American climate as they are so tough and *hardy*. They make dense, sturdy, compact bushes, 4 to 6 feet high and very ornamental. Their dark, rich leathery foliage is oddly wrinkled, shiny and remarkably free from insect pests. Some bloom all summer, others but once, but are followed in the autumn with a profusion of beautiful orange-red or crimson fruits. The plants are hardy as oaks, and do well in the most trying places—seashore, mountains or anywhere. Excellent for making hedges or planting on the lawn with shrubbery.

★**ALICE ALDRICH.** We consider this a remarkably fine bush Rose for garden planting. It has lovely buds and its large, double flowers of clear, bright pink are borne at intervals during the whole growing season; very sweet and beautiful. It possesses all the excellent qualities of the Rugosa class. Price, 1-yr., 15c., postpaid; 2-yr., 35c.; Star size, 75c., by express.

CONRAD F. MEYER (The New Tea Rugosa). Splendid, large, elegantly formed buds and flowers, 3½ to 4 inches across and perfectly double. Color, rich peachy yellow, delicately tinged with silver-rose; very fragrant, entirely hardy. Price, 1-yr., 25c., postpaid; 2-yr., 50c., by express.

NOVA ZEMBLA (New). Very fine. The flowers are large and double. Pure white, with a pleasing flush of pink. A sport from Conrad F. Meyer. In 2-yr. size only, 50c., by express.

★**NEW CENTURY** (Double Pink). A magnificent new Rose, the result of a cross between the lovely everblooming Rose Clothilde Soupert and the hardy *Rosa rugosa alba*. The flowers are 3 to 4 inches across, perfectly full and double, and borne in elegant clusters. The color is clear flesh-pink with bright red center, and having all the petals widely bordered with fine creamy white; it is very sweet and has the delightful fragrance of the wild Rose or sweetbrier. Called the Ever-blooming "Ironclad" Rose. Price, 1-yr., 20c., postpaid; 2-yr., 40c.; Star size, 75c., by express.

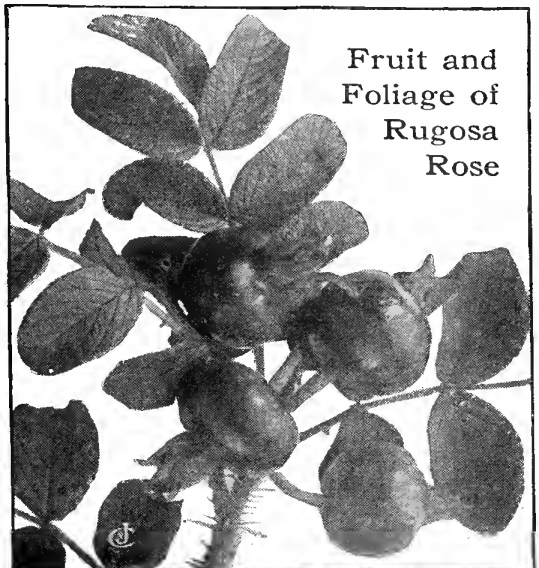

RUGOSA ALBA. Came from Japan. Single pure white flowers of five petals and highly scented, followed by pretty berries. Price 1-yr., 15c., postpaid; 2-yr., 35c., by express.

RUGOSA RUBRA. Another from Japan. Flowers a beautiful bright rosy crimson and single, succeeded by large berries of rich, rosy red. Exceedingly ornamental. Price, 1-yr., 15c., postpaid, 2-yr., 35c., by express.

Offer No. 135. *Rugosa rubra* and *alba* bear bright berries. We offer the 2 in 1-yr. size for 25c.; the 2 in 2-yr. plants for 50c., by express.

Foliage of
Rugosa
Rose

SIR THOMAS LIPTON

★**Rosa rugosa magnifica.** Introduced by The Conard & Jones Co. A magnificent Rose; a splendid acquisition in this valuable class. Its foliage and habit of growth are quite as fine as "New Century" and "Sir Thomas Lipton." Its flowers are brilliant carmine, which in the buds has a depth and richness beyond description. This shades to a rosier hue, as the flowers open full. Size is often 4 to 5 inches across. Deliciously fragrant, and will thrive where others fail. Price, 1-yr., 25c., postpaid; 2-yr., 50c., Star size, \$1, by express.

★**SIR THOMAS LIPTON** (White Century). This grand Rose requires no recommendation beyond the testimonials of those who have tried it. We consider it, without exception, the best double white Rose in its class; beautiful in foliage, early and constant in bloom, of most vigorous habit, ironclad constitution, producing a bush 5 or 6 feet high, and as great in diameter. The original bush on our grounds (ten years old) grew to be 20 feet in circumference, and was usually in bloom from the third week in May until November. (See cut.) Price, 1-yr., 20c., postpaid; 2-yr., 50c.; Star size, \$1, by express.

ROSERAIE DE L'HAY (New). Distinctly meritorious; produces an intense and exquisite perfume, because of which it is used to make the attar of Roses. Flowers bright red and very free-bloomer. Good strong 2-yr. plants, 75c. by express.

SOUV. DE PIERRE LEPELDRIEUX. A fine, vigorous grower that bears double flowers in immense clusters; color brilliant vinous red. Deliciously sweet-scented and followed by bright red berries that remain on a long time—very ornamental. Price, 1-yr., 20c., postpaid; 2-yr., 75c., by express.

TRUE ENGLISH SWEETBRIAR (*Rosa rubiginosa*)

This is the True Eglantine, and highly valued for the delightful fragrance of its young foliage as well as flowers. It is entirely hardy, and when once planted will take care of itself. Makes a fine hedge planted 2 feet apart, or is equally good for a group or

single specimen. Flowers pink. Price, 1-yr., 20c., postpaid; 2-yr., 40c. each, by express.

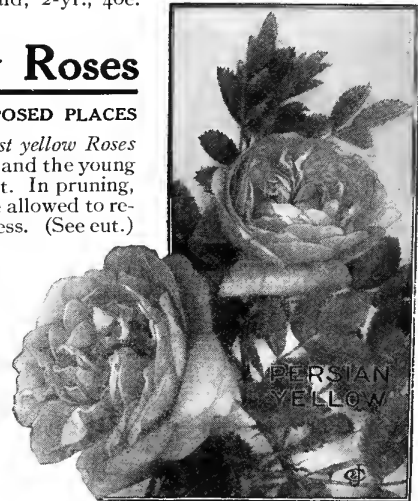

Three Bright Yellow Hardy Roses

VERY HARDY. THEY CAN BE PLANTED IN THE MOST EXPOSED PLACES

Persian Yellow. (*Austrian Briar*.) This variety and Harrison's Yellow are the showiest yellow Roses in cultivation. Persian Yellow flowers are a deep golden yellow color and the young leaves have the fragrance of the Sweetbriar. It blooms freely under ordinary treatment. In pruning, the head should be well thinned and the shoots that are left for flowering should be allowed to remain long. Established plants should be pruned very little. 2-yr., only, 50c. by express. (See cut.)

★**HARRISON'S YELLOW.** (*Austrian Briar*.) Bright, clear golden yellow; entirely hardy. Grows 3 to 4 feet high, and is fine for planting in group or clump or with other hardy shrubs. Price, 2-yr., 50c.; Star size, 75c., by express. (See cut, foot of page.)

★**SOLEIL D'OR.** "Sun of Gold," Budded. The flowers are large and globular, perfectly full and double. The color is a mixture of reddish gold, orange-yellow, nasturtium-red and rosy pink, a combination difficult to describe. Price, 2-yr., 50c.; Star size, 75c., by express.

A bush of Harrison's Yellow with its bright golden blossoms

The Old Cabbage Rose. This grand old favorite was introduced in 1596 and is still much sought after.

The flowers are large, full, and have the delicious old Rose fragrance that cannot be had in some of the newer varieties. Prune in February or March by cutting out all dead wood and thin sparingly some of the past season's growth where over-crowded. Price, 1-yr., 10c., postpaid; 2-yr., 35c., by express.

★**Madame Plantier.** Specially recommended for cemetery planting. Pure white, enormous bloomer and extremely hardy. 1-yr., 15c., postpaid; 2-yr. size, 40c.; Star size, 65c., by express.

The Scotch Roses (*Rosa spinosissima*.) These Roses form small, compact bushes which need no pruning and are particularly useful where a low-growing thorny hedge is wanted. They are absolutely hardy and need no protection. The flowers have the simple charm of the single Rose, and quantities of them on the bush before opening look like little balls. We offer two colors.

ALBA. Pure white. ★**RUBRA.** Dark red. Price, 1-yr., 20c., postpaid; 2-yr., 45c.; Star size (Rubra only), 75c., by express.

INTERESTING ODDITIES—ROSES

"A Sensation of the Century"

★ THE BLUE ROSE (Veilchenblau)

A new Rose from Holland that originated from Crimson Rambler. It bears semi-double flowers of medium size, in large bunches. The originators describe the color as "reddish or rosy lilac when opening, changing to amethyst or metallic blue." We have bloomed it inside and outside and find it as described and a very distinct novelty. Thoroughly hardy and a vigorous, tall-growing climber. Price, 1-yr., 20c., postpaid; 2-yr., 45c.; Star size, 75c., by express.

The Green Rose

THE GREEN ROSE (Viridiflora)

An Oddity—the Very Thing for St. Patrick's Day

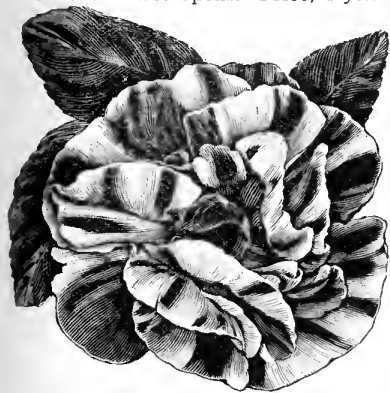

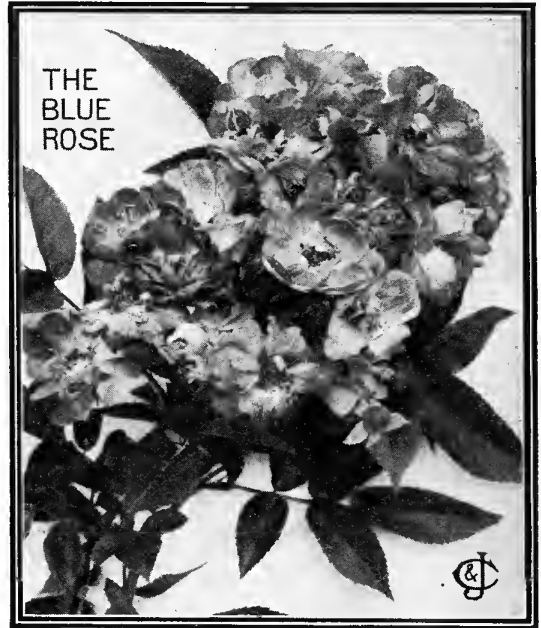

The wonderful Green Rose; a valuable curiosity. Petals of the flowers are same color as the leaves—a deep pea-green—a free bloomer. Price, 1-yr., 15c., postpaid; 2-yr., 40c., by express.

★ LEONIE LAMESCH

(10 Colors)

A Most Remarkable and Pleasing Novelty

The blooms are medium size and very valuable and ten distinctly colored flowers are frequently shown on the bush at one time, varying from cochineal-red in the bud to glowing coppery red tinged with orange, when the flower opens. Price, 1-yr., 20c., postpaid; 2-yr., 45c.; Star size, 75c., by express.

York and Lancaster

THREE INTERESTING SOUTHERN ROSES

Cherokee. A strong grower. Flowers semi-double, and firm like pure white wax and show well against the deep green leaves. Price, 1-yr., 15c., postpaid; 2-yr., 40c., by express.

MACARTNEY. A southern favorite. Beautiful large single white flowers, with glistening golden stamens; an exquisite sort and very fragrant. Price, 1-yr., 25c., postpaid; 2-yr., 50c., by express.

MICROPHYLLA (Red). Vigorous, dense-growing bushes of semi-climbing habit; nearly evergreen. Double red flowers. Very satisfactory for cemetery work. Price, 1-yr., 20c., postpaid; 2-yr., 45c., by express.

THREE HARDY VARIEGATED ROSES

"York and Lancaster." (Damask.) A remarkably vigorous grower and perfectly hardy. It is of rich historic interest, dating back to the Wars of the Roses between the Royal Houses of York and Lancaster; said to have originated when these warring factions became united, its color representing the white of the Yorkists and the red of the Lancastrians. Our illustration gives but a faint idea of its striking appearance; buds and flowers are wonderfully marked, red and white, sometimes blotched and sometimes striped, full and double. When established will last a lifetime. Price, 1-yr., 50c., postpaid; 2-yr., \$1; extra 2-yr. size, \$1.50, by express.

★ **VICK'S CAPRICE.** A fine striped Rose of remarkable beauty. The flowers are large and elegantly formed, quite full and double. Color deep clear pink with wide stripes of pure white, very attractive. Price, 1-yr., 20c., postpaid; 2-yr., 45c.; Star size, 65c., by express.

★ **ROGER LAMBELIN.** A most remarkable Rose. The color, a rich glowing crimson, notched petals edged and banded with pure white like a picotee; rare and handsome. Price, 1-yr., 20c., postpaid; 2-yr., 45c.; Star size, 75c., by express.

Offer No. 137. The above 3 variegated Roses, in 2-yr. size, for \$1.75, by express.

Roger Lambelin

HARDY HYBRID PERPETUAL ROSES

The Hybrid Perpetuals are considered the most valuable of all Roses, because they bear the largest, sweetest, and most brilliantly colored flowers, and are so hardy and vigorous they live over winter with slight protection, and continue to bloom regularly from year to year. Their grand flowers are of all shades of red, crimson, scarlet, pink and white, but no yellows. They thrive and bloom finely in all sections of the country, and should generally be planted in the open ground, as but few varieties are suitable for house culture. Some kinds do not bloom till the second year, but when fully established bloom regularly at the usual time and occasionally during the summer and fall months. Though called "Perpetual," they are not constant bloomers, except a few as offered on page 41, but are the finest and most beautiful of all hardy Roses.

Pruning Hybrid Perpetuals

For Exhibition Purposes. All dead, weak and unripe shoots should be cut clean out and the center of the plant thinned to admit air and sunshine; the stronger and well-ripened shoots should be cut back to three or four eyes. In May, or as soon as the flower buds have been formed, it may be necessary to remove weak growths and also those that are not required, and so throw all the strength into the most promising growths.

For Garden Decoration follow the instructions for exhibition, except in pruning do not cut the shoots to less than four or six eyes allowing more growth to remain.

We offer the choicest and most beautiful varieties in cultivation, and send strong, healthy plants.

Alfred Colomb. A noble Rose. Large, globular flowers; bright rich crimson, dark and handsome. The bush is a strong, erect grower, entirely hardy, and an abundant bloomer. Price, 1-yr., 15c., postpaid; 2-yr., 40c., by express.

★ **American Beauty.** Color, deep pink to crimson, and intensely fragrant.

This is a most beautiful Rose and a great favorite in some sections of the country where it thrives abundantly in the open ground. In the cut-flower realm it reigns supreme; think of blooms 4 inches across on stems 4 feet long, for so they grow under glass. Is it any wonder they command a price of \$5 per dozen and often more, and figure prominently in floral decorations of the most important public and social functions. There is a large demand for American Beauty and we supply fine, strong plants in 1-yr. size, at 25c. each, postpaid; 2-yr. size, 50c. each; Star size, 75c. each, by express.

★ **Anna de Diesbach (Glory of Paris).** One of the old varieties, introduced 1858. Color is a beautiful shade of carmine-pink; flowers are extra large, full and very sweet. A Rose that every one should have. Price, 1-yr., 15c., postpaid; 2-yr., 40c.; Star size, 75c., by express.

★ **Ball of Snow.** Pure snow-white, sometimes faintly tinged with pale rose; flowers medium size, full and fragrant. Price, 1-yr., 15c., postpaid; 2-yr., 35c.; Star size, 60c., by express.

★ FRAU KARL DRUSCHKI, or White American Beauty

THE BEST WHITE ROSE IN EXISTENCE

Gentlemen:
 Frau Karl Druschki is now over two feet tall. My roses are the talk of the neighborhood.
 Yours respectfully,
 G. C. L.,
 Washington, D. C.

This magnificent variety has taken first place at all the great flower shows of Europe. Pure snow-white, with long buds and immense, perfectly double flowers, 4 to 5 inches across, with wax-like petals and very durable. It is one of the most continuous flowering Roses in this excellent class. The bush is a vigorous grower of upright habit and luxuriant foliage. Hardy everywhere that Roses grow. Both for cutting and for garden decoration, "White American Beauty is universally admitted to be the finest white Rose in cultivation." *The Garden—England*. We offer extra-fine plants. Price, 1-yr., 25c., postpaid; 2-yr., 50c.; Star size, \$1, by express, or \$5 for 6.

Gentlemen:
 ... My Frau Karl Druschki is beautiful to a point beyond description, and has been admired by many neighbors and strangers this spring.
 W. G. S.
 Haddonfield, N. J.

OAKMONT. Fine peach-pink flowers; large and sweet; good bloomer, hardy and productive. 1-yr., 15 cts., post-

paid; 2-yr., 40 cts., by express.

★**PAUL NEYRON.** The largest Rose. This reliable and well-known H. P. Rose, sometimes called "The Peony Rose," still leads all others of its color and class. Color, clear pink. It is the largest Rose in cultivation, single blooms often measuring 5 to 6 inches across. One of our customers in Alaska writes: "The Paul Neyron Rose bought from you has now flowers 6 inches across." So you see, that added to its other qualities it is entirely hardy, as it does well even in Alaska; also very fragrant, has fine, erect habit, is a strong grower; beautiful, large, smooth, glossy foliage. 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

★**PRINCE CAMILLE DE ROHAN.** Very dark, velvety crimson, almost black; darkest of all. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 65 cts., by express.

ROGER LAMBELIN. See page 37.

★**ULRICH BRUNNER** (See cut, page 41). This is by a great many considered the finest red Rose in existence. Color, brilliant cherry-red. This variety is a seedling of Paul Neyron, from which it derives its immense size. It has fine form, is intensely fragrant, and the flowers have great lasting qualities, which make it valuable for cutting. The branches are almost thornless and the foliage is very strong and healthy. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

Dear Sirs: May 20, 1911.
 Rose plants sent by your firm to my address reached me promptly and in splendid condition; the finest two-year-olds that I have ever known sent out by any nurserymen, and as I have bought largely from most of the leading Rose-growers of the country I am qualified to judge. It is a great pleasure just to look at them and see them take so kindly their transference to my grounds. Wishing you a world-wide prosperity,
 Yours cordially,
MRS. L. S. B., Demarest, N. J.

We prepay delivery charges on all orders for \$5 worth and over bought from this book; on express orders for less than \$5 add 10 per cent extra and we will prepay

THE LEADING BOOKS ON ROSES AND ROSE-GROWING

We have secured the General Agency in America for
"THE GENUS ROSA" By Ellen Willmott, F.L.S.
 Published in 24 Parts

This book will give an account, with 127 illustrations in color, by Alfred Parsons, A. R. A., of the most interesting species of the Roses in the Old and New Worlds. Some natural hybrids, a few first crosses and several old garden Roses have been included, in order to complete the treatment of the subject. Professor Sargent, of the Arnold Arboretum, Harvard University, read the entire manuscript, which owes much to his criticisms and advice. 127 colored plates, etc. Write for Prospectus. Edition limited.

ROSES. By The Rev. Joseph H. Pemberton (President of the National Rose Society). We consider this the finest book on Rose-growing for the amateur. 336 pages. Illustrated. Price, \$3.50, postpaid.
ROSES, AND HOW TO GROW THEM. Written by a group of experts. 189 pages. \$1.10, postpaid.
A BOOK ABOUT ROSES. By Dean Hole. Intensely interesting and instructive. 14th edition. Price \$1.50, postpaid.
THE ROSE. By H. B. Ellwanger. Full directions for propagating, pruning, etc. 310 pages. Price \$1.25, postpaid.

"YOU HAVE THE FINEST CANNAS IN THE WORLD"

The above is the comment made upon a visit here by the late Mr. Geo. H. Brown, Landscape Gardener, U. S. Public Buildings and Grounds, Washington, D. C.

I CONGRATULATE YOU"

To have doubled, and more, the size of a flower;

To have trebled the variety of colors;

To have increased the endurance of the bloom;

To have given bronze foliage to flowers that before had only green,

is, after seventeen years of faithful, enthusiastic hybridizing, the record of our Vice-President, Antoine Wintzer, America's Canna Wizard.

To have won for these improved flowers leading awards at the great expositions in America;

To have won for America the majority of the awards against all competing nations of Europe in a two-year international competitive test by the Royal Horticultural Society of England;

To have the superiority of C. & J. Cannas recognized and to have them used by the leading parks of our country;

Is evidence enough that C. & J. Improved Cannas are superior.

To have the superiority of C. & J. Cannas recognized and to have them used by the Department of Agriculture;

To have the superiority of C. & J. Cannas recognized and to have them used by the United States Government for beautifying extensively the nation's Capitol and,

To have the superiority of C. & J. Cannas recognized and to have them offered by our fellow florists in their catalogs,

You get the best only when you order direct from us, the world's foremost originators and introducers of improved Cannas

HOW TO PLANT AND GROW

C. & J. Pedigree Cannas

Up until May 1, we send out our Cannas in Dormant Roots, except the new kinds which we offer only in potted plants. After May 1, we aim to have all kinds ready in potted plants. Price, 5c. each more than Dormant Roots. Dormant Canna Roots may be started indoors during March or April, but should not be set out until weather is settled and the ground warm, usually May or June in this latitude. When planting Dormant Roots do not set too deep. The eye should show a little through the ground when done. Plant in good, rich garden soil mixed with one-half of old, rotted stable manure. Set them about 18 inches apart each way. Water sparingly the first two weeks after planting; when growing freely, water liberally.

C. & J. 1912 NOVELTY CANNAS

The novelties we present this year have been made possible by our Mr. Wintzer's seventeen years of patient work and have been chosen and tested from among thousands of seedlings in our trial-grounds. We have continued our custom of giving Indian names to bronze-leaved varieties.

☞ KATE F. DEEMER (3 to 4 feet)

The Chameleon-like Canna

The grand flowers open a rich, oriole-yellow which gradually gives place to turkey-red in the center and throat of the flower, in striking contrast with the rest of the blossom which turns almost white. The rich yellow buds on reddish brown stems, combined with the yellow and white flowers surmounting rich green foliage, make a fascinating combination. Strong plants, \$2 each, prepaid.

☞ SPLENDOR (3 to 3½ feet)

The most impressive quality in this Canna is the firm, well-spread-out formation of the flowers, which are an intense scarlet color and very large. It makes 2 or 3 bloom heads on each stalk, insuring flowers practically all the time, as new blooms are constantly appearing before the older flowers fade. "Splendor" is a fitting name to such a magnificent Canna. Green foliage. Strong plants, \$2 each, prepaid.

☞ CONOWINGO (4 to 5 feet)

The color of this flower is, like "Splendor," an intense fiery scarlet, but slightly deeper. Its great attraction, however, and difference from "Splendor," is in the foliage, which is an unusually beautiful plum color at the base, shading to rich olive-green at the tip. The stately flowers are freely produced and stand well above the foliage, thus showing themselves off to good advantage. Strong plants, \$2 each, prepaid.

☞ WABASH (4 feet)

The Bronze-leaved "Rosea gigantea"

Flower is unusually large, petals broad and borne in great abundance well above the magnificent foliage of deep purple-brown.

Well described as "Bronze-leaved Rosea gigantea," for this flower has the same great size and carmine-pink color as that famous novelty, adding the advantage of handsome bronze foliage. Strong plants, \$2 each, prepaid.

☞ BEACON (3 to 3½ feet)

This Canna is notably effective because of its abundance of bloom. The moderate-sized flowers are borne in great impressive heads of rich cardinal-red. When seen in a row or bed the flowers show a mass of bloom that for color effect we think is unparalleled. "Beacon" will be in great demand for landscape work and large beds.

Strong plants, \$1 each prepaid.

Offer No. 45. These Five 1912 Novelty Cannas, in nicely started plants, for \$8.50, delivered.

C. & J. 1912 "ELITE" COLLECTION

ALL ORIGINATED AND INTRODUCED BY THE CONARD & JONES COMPANY

☞ MRS. ALFRED F. CONARD

(Height 4 feet. Shown in cut opposite)

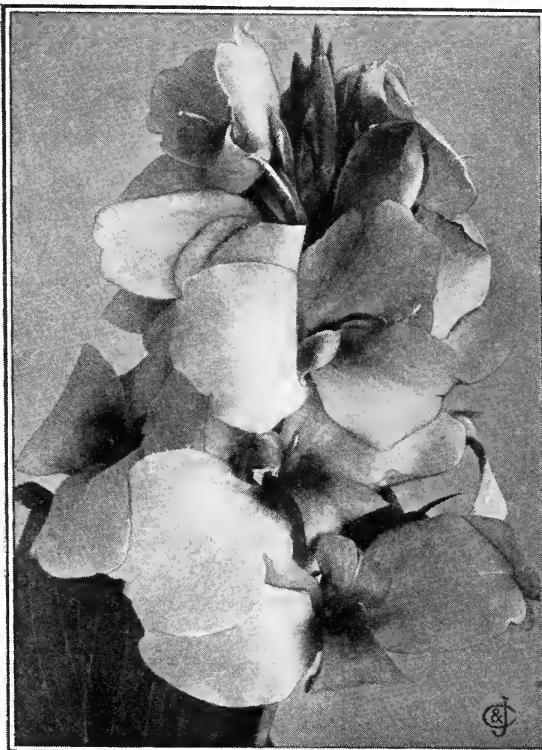

An entirely new note in Cannas was struck with the introduction in 1910 of this variety. Its exquisite salmon-pink flowers are of largest size, in erect and abundantly furnished heads, so freely produced as to keep a superb showing for months above the rich green foliage. It is worthy to bear the name of the good wife of our late president. Strong plants, from 5-inch pots, \$1.25, from 4-inch pots, \$1; delivered.

☞ HALLEY'S COMET (3 to 4 ft.)

A striking addition to our galaxy of stars. The plant is a healthy, vigorous grower with green foliage, and flowers that catch the eye—large and of blazing scarlet, the throat a pure yellow, and a narrow thread of yellow all round each petal's wavy edge. Strong plants, \$1, delivered.

☞ MINNEHAHA (3 to 4 feet)

Blossoms are extra-large and borne in great clusters; color shades through gold and cream to a center of peach-blow pink. "Minnehaha" is an entirely new "break," extremely beautiful and different from any other yet introduced. (See cut, page 47.) *Bronze foliage.* Strong plants, 35 cts. delivered.

New Canna, Mrs. Alfred F. Conard

☞ OLYMPIC (1911) (5 feet)

This magnificent Canna surpasses by a long lead many standard kinds; but more than that it is a distinctly new departure in color, being a most captivating shade of rich orient-red with center flamed a lighter shade and dappled carmine. Individual blossoms are of the largest size, and the huge twenty-flowered clusters make heads that are *simply immense.*

The color effect presented by "Olympic" is new in Cannas and most fascinating. Strong plants, \$2, delivered.

☞ GLADIOFLORA (3½ feet)

Remarkable for the unusual shape of the flowers, which look like large gladioli. Petals are rounded and so wide they overlap each other. Color is crimson, changing to carmine-rose, edged with gold. A beautiful variety. Strong plants, 35 cts. each, postpaid.

☞ WILLIAM SAUNDERS (4 ft.)

Flowers often 5 inches across, are bright scarlet, produced in great clusters on branching stems. *Bronze foliage.* It is a strong, vigorous grower and self-cleaning, which means flowers always fresh from June till frost. Strong plants, 35 cts. each, postpaid.

Offer No. 45a. The above 6 new, high-class Cannas, each one FIRST in its class and color, in strong plants, ready May 1, for \$4.50, prepaid.

GIANT ORCHID-FLOWERING LILY CANNAS

These Cannas are in a class by themselves, because of their wonderful size, and the rare and beautiful formation of their flowers, suggestive of the beauty of the tropical orchids. With their height of 6 to 7 feet, they tower above the average Canna, and the luxuriant foliage is as large as elephants' ears. A single blossom of "Louisiana" often measures more than 7 inches across. Under a very hot sun the fine silken petals of the average orchid-flowering Cannas sometimes show a tendency to wilt, but we feel that we have largely overcome this in our latest introductions, which have still the exquisitely formed flowers, and, at the same time, petals of such excellent substance that the hot sun does not affect them.

FOUR OF THE LATEST AND BEST

‡ **Mrs. Carl Kelsey.** 6 to 7 ft. Foliage green with a narrow edge of purple, and with erect, full heads of enormous flowers, each one wider than this page. Orange-scarlet, flaked and striped with golden yellow; petals wavy edged. We know of no other Canna so marvelously marked—an ornament to any garden. (See illustration.) 25 cts., postpaid.

‡ **New York.** The foliage alone reaches up to 5 feet high, the leaves are large and broad and stand quite erect, thus showing their deep, rich, purple-plum color on both sides. Has five or six stalks of flowers at once on every well-fed plant, with five petals 5 to 6 or 7 inches across. Color almost scarlet, and all above the foliage. 25 cts., postpaid.

‡ **Uncle Sam.** Received an award of merit from the Royal Horticultural Society of England, and a bed of it was planted on the grounds of the White House, Washington, D. C. It is very stately in appearance and bears enormous bunches of brilliant orange-scarlet flowers. Height, 6 to 7 feet. 20 cts., postpaid.

Giant-Flowering Purple-Foliaged Canna, Wyoming

One of the most majestic Cannas. Blossoms orange-colored, true orchid-shape, with large, rounded petals that flap and flutter in the breeze like glistening silken flags. Height 7 feet. 15 cts., postpaid.

FROM AN EXPERT WHO KNOWS CANNAS

2176 January 19, 1911
Gentlemen: I have grown your new Cannas for many years at Austin, Texas, and the "Louisiana" is the most successful so far as tried.
Yours truly,
H. B. Beck
University of Texas, Austin, Tex.

Gentlemen: March 28, 1911
The Louisiana Canna Lily I got from you last spring was the most beautiful Canna I ever saw. It had three bloom stalks nine feet high and was just loaded all summer and autumn with flowers.
Mrs. J. L., Anabel, Mo.

NOTE.—When our friends try "Mrs. Carl Kelsey" Canna, they will find it equal, if not superior, to "Louisiana."

Offer No. 48 Above 4 in Dormant Roots, 75c., postpaid; or after May 1 in plants for 90c., postpaid.

STANDARD VARIETIES

Allemania. 5 ft. A splendid variety. The outer petals are bright scarlet with a broad yellow border, the inside colors being scarlet and dark red, beautifully mottled and variegated. 15 cts., postpaid.

Austria. 5 ft. Flowers 6 to 7 inches across; pure golden yellow; a vigorous grower. 15 cts., postpaid.

Burbank. 4½ ft. A giant in size with nearest approach to semi-double flowers; beautiful, rich canary-yellow, the throat finely spotted crimson. 15 cts., postpaid.

Indiana. 6 ft. Glistening golden orange, daintily marked and striped with red. Single blossoms often 7 inches across. 15 cts., postpaid.

Italia. 4 ft. Center brilliant red, petals widely bordered with clear yellow; striking and handsome. 15 cts. each, postpaid.

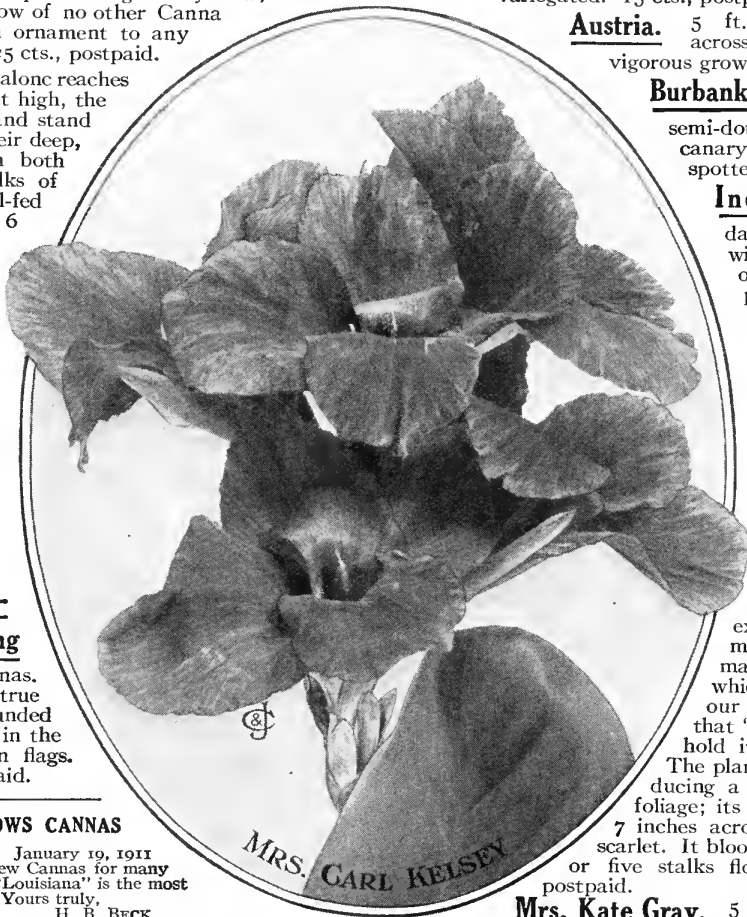

‡ Grand Prize Canna,

Louisiana. 7 ft. At the Louisiana Purchase Exposition, St. Louis, 1904, where all the finest Cannas were on exhibition, "Louisiana" was pronounced the finest orchid-flowering kind then in existence. The words of commendation we receive and the magnificent showing of bloom which this great plant makes on our trial-grounds convince us that "Louisiana" will continue to hold its lead for some years yet. The plant is a vigorous grower, producing a thick mass of glossy green foliage; its flowers are often more than 7 inches across, and every inch a vivid scarlet. It blooms tremendously, often four or five stalks flowering at once. 15 cts., postpaid.

Mrs. Kate Gray. 5 ft. Flowers 6 inches across; color, a splendid shade of rich orange-scarlet, finely flaked and streaked with golden yellow tints. 15 cts., postpaid.

Pennsylvania. 6 ft. The flowers are pure, deep scarlet, of immense size. A most excellent sort. 15 cts., postpaid.

Offer No. 48a One each above 8, in Dormant Roots, 90c., postpaid. After May 1, plants for \$1.20, postpaid.

Prices named are for dormant roots. Potted plants ready May 1, price, 5c. each extra.

- The 91 started plants, \$12.50, delivered.

WHEN LAYING OUT CIRCULAR BEDS

Get the tallest-growing varieties in the center, and then carefully grade each succeeding circle, using dwarf kinds for the outside. Plant one Canna in center of bed, next six Cannas 18 inches apart in a circular row 18 inches from center. For each succeeding circle use six more Cannas than were used in the previous circle and make it 18 inches farther away from the center. A bed thus planted will contain 1 Canna in center, 6 in first circle, 12 in second circle, etc., and all 18 inches apart.

For a round bed 4½ feet across, plant 7 Cannas.

For a round bed 7 feet across, plant 19 Cannas.

For a round bed 10 feet across, plant 37 Cannas.

For a round bed 13 feet across, plant 61 Cannas.

For a round bed 16 feet across, plant 91 Cannas.

For a round bed 6 feet across, plant 3 Cannas in the center and 9 in outside row—12 in all.

On account of their free-blooming qualities, we strongly recommend the following varieties for planting in beds: **Brilliant, Buttercup, California, Compte de Bouchard, Gladiator, King Humbert, Pillar of Fire, Pres. McKinley, Venus, Wyoming.** We recommend planting beds all one color for best effect.

PRICES FOR CANNAS IN QUANTITY FOR BEDDING WILL BE SENT ON REQUEST

FIVE CHOICEST SPIREAS

Spirea Van Houttei. May and June. 5 to 6 feet. A splendid garden shrub, entirely hardy and one of the most beautiful of all; immense bloomer, pure snow-white flowers borne in elegant plume-shaped clusters all over the plant, as shown in the illustration. Recommended for all kinds of outdoor planting; also excellent as a hedge-plant. We believe this is the finest of all the Spireas, and one of the most satisfactory shrubs to be had.

Anthony Waterer. The perpetual-blooming Red Spirea; makes nice shapely bushes 2 to 3 feet high; begins to bear its large, flat clusters of rich, rosy red flowers almost as soon as planted, and continues blooming at short intervals all through the summer and fall. Makes fine single specimens, or may be used for flowering hedge.

Bridal Wreath Spirea (*S. prunifolia*). Flowers white and double like little roses, borne in great profusion the whole length of the branches.

Golden Spirea (*S. aurea*). Bright golden yellow foliage and small white flowers; contrasts splendidly with the other varieties.

Blue Spirea (*Caryopteris mastacanthus*). The finest blue-flowering shrub we have; makes compact bushes, 1½ to 2 feet high; blooms in August and continues loaded with lovely sky-blue flowers until frost. 1-yr. and 2-yr. sizes only.

Prices of Spireas: 15c. each; larger size, 20c. each, postpaid; 2-yr. size, 35c.; 3-yr. size, 50c., by express.

USEFUL ORNAMENTAL HEDGES

Beautiful Hedges add much to the appearance of a property, and are, everywhere, coming into more general use. They look better than fences, last longer and cost less; when once established, they require only a little cultivation and pruning each year to keep them the desired shape and size. A fence is more trouble, a hedge grows better looking every year. These plants are also used for individual lawn specimens. See between the trees in the illustration.

**5 Cents a
"running foot"**

Seems like a low price for a fence, and yet we can furnish you Privet plants for a good hedge like this at that rate, or less, and it will be an ornament for years.

Note the individual plants trimmed cone-shaped to the right of the walk.

CALIFORNIA PRIVET (*Ligustrum ovalifolium*)

Most Popular Hedge Plant

A remarkably vigorous grower, compact and regular in form with glossy wax-like foliage; a beautiful shade of green. It is by many recognized as the **Ideal Hedge Plant**, thrives in all kinds of soils and situations, in sun or shade, around railroads or smoky factories, and for seashore planting it is one of the best things you can get. It is quite hardy, having withstood a temperature of 20 degrees below zero, and is also extensively planted in hot, dry, southern soils. Is never troubled by insects and will withstand shearing to any extent, and at all seasons. Plant 6 to 9 inches apart. Our plants are thrifty, vigorous and well rooted. Price, 10 cts. each, 3 for 25 cts.; 50 for \$2.50, delivered. For prices of larger quantities, see below:

JAPAN BARBERRY (*Berberis Thunbergii*)

Valuable for making a **low, dwarf hedge**. Requires very little pruning. It has fine thorns and small, round, rich green leaves that change color in the autumn to a fiery crimson. The hedge is made still more beautiful by great numbers of pretty drooping yellow flowers which are followed by bright red berries. It is frequently planted singly, and is one of the handsomest flowering shrubs we have. Plant about 12 inches apart. Prices, 15 cts. each, \$1.25 per doz., postpaid; 2-yr. size, 25 cts. each, \$2 per doz.; 3-yr. size, 40 cts. each, \$3 per doz., by express. ROSE HEDGES

are certainly coming to be more and more popular as people learn about the splendid qualities of the Rugosa Roses for this purpose. They make neat, compact, uniform growth, and the thick, bushy mass of glossy, crinkled foliage gives a particularly fine appearance. See page 35. Plant 18 inches apart.

An excellent Rose Hedge is made by training Climbing Roses on a wire fence. The Roses offered on pages 28 to 34 are suitable for this purpose, and offer a large variety to select from. Plant them about 4 or 5 feet apart.

The Unique

BEAUTIFUL, HARDY CLIMBING VINES

Flower-lovers and gardeners know how indispensable are Vines and Climbers for beautifying one's place, especially near the house. Plant Clematis, Climbing Roses and Honeysuckles about the front porches, with perhaps a vine or two of the Chinese Wistaria to climb as high as the roof. Stone or brick walls are always prettier when ivy-clad. Then going around to the rear of the house, if you have a trellis to cover, or want a screen for certain buildings, get more Honeysuckles, and if you need something to cover a large space quickly, try the Kudzu vine; the Trumpet Creeper also is good. On the next three pages are the best climbers for arbors, arches, trellises, porches, etc. Remember how pretty an arbor can be. American Ivy or even Grape-vines make a good covering.

HARDY ENGLISH, or LARGE-FLOWERED CLEMATIS

The Large-flowered or Hardy English Clematises are considered the most beautiful of all our flowering vines. The flowers are large, often measuring 4 to 6 inches across, and are borne in great wreaths and clusters during July and August. The colors range from rich, royal purple to pearly white. The vines are of slender, wiry growth, and require some support that they can twine around, like a rod, pole or wire, and if the location is somewhat moist and partially shaded, so much the better; the north side of the house or porch is often the best place for them. Hardy.

JACKMANII. A rare and beautiful hardy climbing vine of slender, twining growth, and bearing great wreaths and clusters of splendid purple flowers. 5 to 6 inches in diameter.

RAMONA. A strong, hardy grower and very free and almost perpetual bloomer; flowers very large and borne in great profusion, deep sky-blue and very handsome.

MME. EDOUARD ANDRE (New Red.)

A splendid new sort and the nearest approach to a red Clematis yet introduced; the flowers are 4 and 5 inches across and a deep rose-pink; very beautiful.

HENRYII. Elegant, large flowers, rich creamy white; enormous bloomer; very fine. (See illustration).

MADAME BARON VEILLARD. A very handsome variety, beautiful lavender-pink; makes a fine contrast with the other colors; large flowers, a good bloomer. Price, same for all: Strong, one-year plants, 30c. each, \$2.50 per doz.; two- and three-year plants, 40c. and 50c. each, \$3.50 and \$5 per doz., postpaid

SWEET-SCENTED JAPAN CLEMATIS

"Virgin's Bower," *Clematis paniculata* (As shown in the illustration)

This elegant Clematis is one of the finest climbing vines you can get. Flowers are rich, creamy white, and borne in beautiful clusters, completely covering the vine with beautiful star-shaped blossoms; exceedingly fragrant; the sweetest of all Clematis, and one of the hardiest and easiest to grow. Price, good, strong plants, 15 cts. each, 2 for 25 cts., \$1.50 per doz.; 2-yr. plants, 25 cts. each, 3 for 70 cts., \$2.50 per doz., postpaid; extra-size, three-year vines, 35 cts. each, 3 for \$1, \$3.50 per doz., by express.

Offer No. 54 { 1 each of the above 6 plants of Large-flowering Clematis and *Clematis paniculata*, one-year size, \$1.35, or the 6 in two-year size for \$1.85, postpaid.

Sweet-scented Japan Clematis

SWEET-SCENTED HONEYSUCKLES

We recommend these beautiful Honeysuckles as among the finest hardy climbing vines we have for covering porches, trellises, arbors, screens, fences, etc. They are strong, vigorous growers, not troubled with insects or disease, and, having plenty of foliage, are very desirable for shade and shelter; several varieties are almost evergreen and retain their foliage nearly all winter; most of them continue blooming the whole season and are deliciously fragrant.

Ever-Blooming Sweet-Scented Honeysuckle, Heckrottii. A magnificent Honeysuckle; the finest yet produced; remarkable for the large size and delicious fragrance of its flowers of dark, rich, creamy yellow; a healthy, vigorous grower and blooms abundantly the whole season until November. Undoubtedly the best. (See illustration.)

The Beautiful Halliana Honeysuckle. One of the sweetest and most beautiful Honeysuckles; a strong, clean, neat grower, perfectly hardy, almost evergreen; constant and most profuse bloomer; flowers buff-yellow, passing to white and deliciously sweet; splendid for porches and all similar places.

Evergreen Sweet-Scented Honeysuckle. A hardy, vigorous grower; blooms nearly the whole season; deliciously sweet; flowers buff, yellow and white; very desirable for porches.

Golden-Leaved Honeysuckle. Slender, moderate grower; leaves beautifully veined and netted with clear yellow, so that the prevailing color of the foliage is bright yellow; flowers yellow and sweet-scented; fine for pillars and trellises.

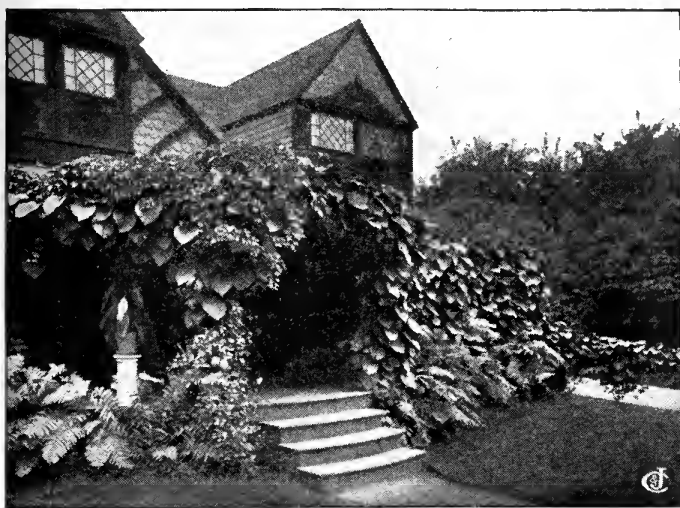

Red-Coral Honeysuckle. A hardy, rapid grower, suitable for rockwork, walls, etc. Flowers coral-red, very pretty.

Akebia quinata. A beautiful hardy climbing vine with rich dark green foliage and curious dark chocolate-colored flowers; delicious fragrance. Price, 15 cts. and 20 cts. each, postpaid; 2-yr. size, 35 cts.; 3-yr. size, 50 cts., postpaid.

Dutchman's Pipe vine makes a cool place on a hot day

HONEYSUCKLE "HECKROTTII"

Apios tuberosa (Tuberous-rooted Wistaria). A rapid-growing, slender climbing vine, bearing elegant clusters of pale blue flowers, somewhat like the wistaria in foliage and flowers, but not so strong a grower. Strong, blooming bulbs, 3 for 10 cts., 40 cts. per doz., postpaid.

Chinese Matrimony Vine. A strong, hardy climbing vine. Bright, rosy purple flowers, followed by brilliant scarlet berries; makes a dense, thick growth; a nice shelter for birds. 15 cts. and 20 cts. each, postpaid; 2-yr. size, 35 cts. each, by express.

Cinnamon Vine. A very graceful and pretty, rapid-growing climbing vine, taking its name from the delicious fragrance of its charming tiny white flowers, which are borne in elegant clusters the whole season, or till killed down by frost; makes a quick shade for doors and porches; hardy and can remain in the ground over winter. Strong roots, 5 cts. each, 50 cts. per doz.; extra-size roots, 15 cts. each, postpaid.

Kudzu Vine (*Dolichos Japonicus*, or *Pueraria Thunbergiana*.) A new hardy climber; will run 30 to 40 feet in a season, and quickly cover porches, fences, tall trees, etc. Bears rich purple flowers in handsome clusters. Strong roots, 25 cts. each; larger size, 35 cts. each, 6 for \$1.75, postpaid; 2-yr. roots, 50 cts. each; 3-yr. size, 75 cts. each, by express.

Dutchman's Pipe (*Aristolochia Sipo*). There is no better hardy climbing vine for shade or screen purposes. The flowers are long and pipe-shaped and the large heart-shaped, deep green leaves, for which it is most valued, seem never to be troubled with either insects or disease. 30 cts. each, postpaid; larger plants, 3 to 4 feet, 65 cts. each, by express.

For Annual Climbers, Moonflowers, etc., see page 57

EUONYMUS (TWO VARIETIES)

A hardy, dense-growing evergreen vine, climbing by aerial roots, often reaching 15 or 20 feet high. Bears pretty fruits; makes good growth if planted in rich soil, and perhaps more satisfactory in a shady situation. Excellent for covering walls, rocks, or trunks of old trees.

Radicans. Small, rich green leaves.
Radicans variegata. Green leaves variegated with silvery white.

Price: Either variety, 15c. each, 12 for \$1.50, postpaid; stronger and larger plants, 30c. each, 12 for \$3, by express.

For Beautifying Banks, Archways and Pergolas

In addition to the vines and climbers on these four pages, we wish also to call attention to the Climbing Roses on pages 31 to 34, which are unsurpassed for training over trellises, arbors and archways, as well as on banks, and for covering pergolas. These Roses make excellent hedges when trained over wire fences. (See page 53.)

Euonymus radicans variegata

MAGNIFICENT WISTARIAS

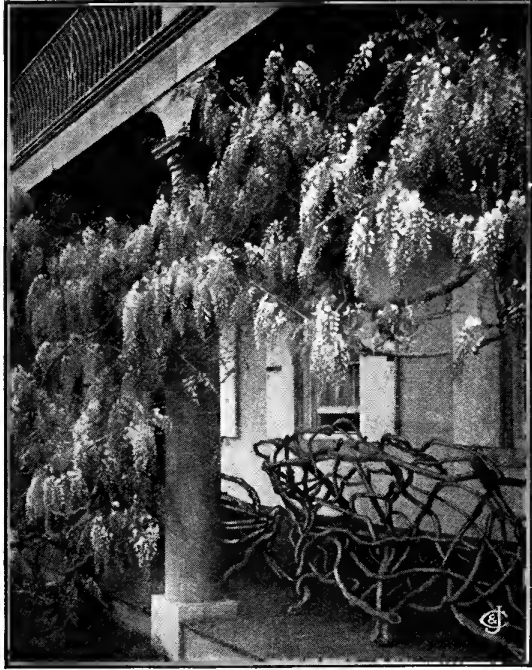

The Wistarias are valuable for training over buildings, second-floor porches, balconies, etc., wherever tall-growing climbers are wanted. They are hardy, rapid growers, and the flowers are borne in long, pendulous clusters, as shown in the illustration; they bloom early in the season and are always greatly admired.

Double Purple Wistaria. This is a magnificent new variety, the finest of all the Wistarias; immense clusters of perfectly double flowers; rich royal purple and delightfully sweet, very showy and handsome. Price 1-yr. plants, 25 cts. each, postpaid; 2-yr. plants, 50 cts.; 3-yr. plants \$1, by express.

Wistaria magnifica. The most vigorous of all the Wistarias. A well-started plant will often grow 30 or 40 feet in a season. It blooms rather later than the others, in beautiful clusters of soft lavender-blue. Price, 15 cts. and 25 cts. each, postpaid; 2-yr. plants, 40 cts. each; 3-yr. plants 60 cts. each, by express.

Wistaria Sinensis alba. Pure white flowers, borne in long, drooping clusters; one of the most beautiful of all. Price, nice mailing plants, 20 cts. each, 3 for 50 cts., postpaid; 2-yr. plants, 50 cts. each; 3-yr. plants 75 cts. each, by express.

Wistaria, Chinese Blue. Bears splendid, long, drooping clusters of lovely violet-purple flowers, deliciously sweet. Price, 15 cts. and 20 cts., each, postpaid; 2-yr. plants, 35 cts. each; 3-yr. plants, 50 cts. each, by express.

(*Solanum Wendlandii*). A grand trailing plant bearing immense clusters of large, sky-blue blossoms over 2 inches across, in clusters of 30 to 50 flowers and buds at a time. Price, strong plants, 15c. each, 3 for 40 cts., postpaid.

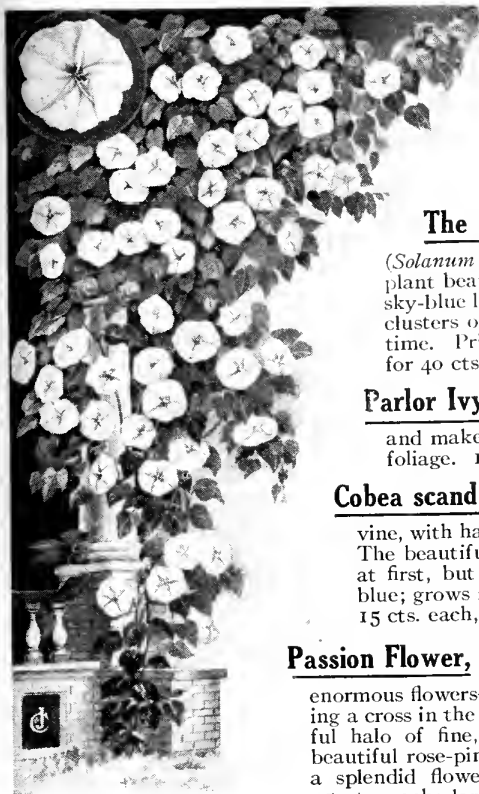

Parlor Ivy. A lovely climber for the house or window; grows very quickly and makes an abundance of pretty green foliage. 10c. each, 3 for 25c., postpaid.

Cobea scandens. Cathedral Bells. A choice slender-growing climbing vine, with handsome foliage; blooms quickly. The beautiful, bell-shaped flowers are green at first, but quickly change to deep violet-blue; grows 20 to 30 feet in a season. Price, 15 cts. each, postpaid.

Passion Flower, Northern Cross. Grows 8 to 10 feet; handsome foliage and enormous flowers—over 5 inches across and showing a cross in the center, surrounded by a wonderful halo of fine, sky-blue rays, underlaid with beautiful rose-pink, and white petals—altogether, a splendid flower; delightfully fragrant. Price, 15 cts. each; larger size, 25 cts. each, postpaid. (See illustration.)

Madeira Vine. A quick-growing climber which bears large racemes of beautiful, feathery white flowers, very sweet. Price, roots, 5c. each, 50c. per doz., postpaid.

Vinca variegata. Elegant, low-growing, trailing vine; bright, glossy green leaves, widely bordered with creamy white; extra-fine for baskets, window-boxes and rockeries. 10 cts. each, 6 for 50 cts., postpaid.

Offer No. 57b. 1 each, Blue and White Moonflowers, 1 Cobea scandens, and 1 Passion Vine, the 4 for 50c., postpaid.

HARDY PERENNIAL PLANTS

OR OLD-FASHIONED GARDEN FLOWERS

One of the chief delights that comes from owning a garden is in having flowers enough to give one's friends, as well as for house and table decoration. The beauty, variety and lasting qualities of Hardy Perennials make them especially useful as cut-flowers. They are also equally valuable for adding brightness and color to the border beds, and a comparatively small collection will enable you to have some flowers in bloom all summer through.

Prices: Unless otherwise noted, 15c. each, 2 for 25c., 12 for \$1.10, postpaid; 25 for \$2, or \$7.50 per 100, by express

Achillea alba, The Pearl. Entirely hardy and bears an abundance of pure white, perfectly double flowers the whole season. The flowers are borne in pretty graceful sprays, nice for cutting.

Adam's Needle, or Spanish Bayonet. (*Yucca filamentosa*). A low-growing, tropical-looking plant, perfectly hardy; throws up a strong flower-stalk 2 to 4 feet high, bearing enormous clusters of creamy white, bell-shaped flowers; blooms in August.

Anemone Japonica, Queen Charlotte. Bears large, semi-double, silvery pink flowers, same color as the La France rose. Height, 2 to 3 feet. Blooms from August till frost.

Aegopodium Podagraria variegatum. One of the choicest hardy border plants. A rapid-growing plant, with neat green and yellow variegated foliage, thriving in any soil; makes a fine border for a bed of shrubs or for covering waste ground; grows only 12 inches high.

AQUILEGIA (Columbine) In 4 Colors

Chrysantha. Yellow.

Canadensis. Bright red and yellow.

Cœrulea. Bright blue and white.

Nivea grandiflora. Pure white.

Offer No. 58a
1 each of the 4 colors
for 50c., postpaid.

Hardy Aster. Michaelmas Daisy, or Star Wort. Blooms in the fall and makes a beautiful sight. Throws up straight stems that are topped with great panicles of starry blossoms. Height varies. We offer three distinct colors, **Purple, Rose and Blue.**

Directions.—We send you most of these in strong roots. Allow from 1½ to 4 square feet of space for each, depending upon the size and character of the plant. After the first severe frost in the fall, cut down the tops to within 3 inches of the ground, and give the bed a good coat of half-rotted manure, which will both protect the plants and enrich the ground; dig this under in the spring before new growth starts.

Anemone Japonica

Bleeding Heart (*Dicentra spectabilis*). Blooms very early in spring; splendid long racemes of beautiful heart-shaped rosy pink and white flowers.

Campanula persicifolia. Bellflower or **Blue Bells.** The old-fashioned "Blue Bells," with large blossoms of blue and white; they bloom in June or July. 1 to 2 feet.

Coreopsis lanceolata grandiflora. Emblem Flower of the International Sunshine Society. Flowers rich golden yellow of graceful form, and borne on stems 2 to 3 feet high. They remind one of a Yellow Cosmos.

Cornflower Aster (*Stokesia cyanea*). Grows 18 to 24 inches high, branches freely and is covered the whole season, from July to October, with fine, large, lavender-blue flowers, 4 to 5 inches across. It will do well in any open, sunny position. 20 cts. each, \$2 per doz., postpaid.

Burbank's Shasta Daisy. Grown by Luther Burbank, the great plant-specialist, and is certainly one of the most valuable hardy plants introduced in many years. Begins to bloom early in summer and continues the whole season; splendid, large, showy flowers of pure, glistening white; entirely hardy.

Delphinium Formosum. Hardy Larkspur. A strong, robust grower that flowers abundantly. A beautiful dark blue variety that grows 3 to 4 feet high and is in flower almost constantly from June till frost.

HARDY POMPON CHRYSANTHEMUMS

The elegant Pompon Chrysanthemums are entirely hardy and live over winter without protection. They begin to bloom in September and continue loaded with flowers till stopped by freezing weather. The flowers are small and round, most of them perfectly double and of exceedingly brilliant colors. The brightest and most showy autumn flowers we have, and always greatly admired.

Price, each variety, in strong, thrifty plants, 10c. each

Anna Marie. Creamy white, tipped with pink.

Baby. Miniature flower, like golden buttons.

Bouquet. Rich carmine-red, very showy.

Bronze Bride. Golden bronze; flaked crimson.

Frederick Marronet. Yellow, striped crimson.

Flossie. Silver-pink.

Illustration. Creamy white, shaded pink.

Little Bob. Dark bronze.

Little Pet. Very double flowers; rich dark red.

Strathmeath. Rosy pink.

White Flora. Best white. Beautiful when massed.

Zenobia. Golden yellow.

Hardy Pompon Chrysanthemums. Very bright

Prices, unless otherwise noted, 15c. each, 2 for 25c., 12 for \$1.10, postpaid; \$7.50 per 100, by express.

Digitalis. Foxglove. Assorted kinds. The bold, pointed racemes of cone-shaped flowers are very odd and attractive, and bloom abundantly through June and July. They prefer a moderately shaded, somewhat moist place, but will do well almost anywhere. Height, 3 feet. (See illustration.)

Eulalias. Ornamental Grasses. Perfectly hardy, grow 6 to 8 feet high, and in the fall bear feathery plumes which may be cut and kept indoors all winter. For lawns and parks they are graceful and effective ornaments. Three kinds.

Gracillima. Most graceful.

Zebrina. Cross-bands of yellow.

Variegata. Striped lengthwise.

15c. each, 12 for \$1.25, postpaid; or in clumps, \$1.50 per doz., by express.

Funkia grandiflora. The Large White Day Lily, or Plantain Lily. A

handsome plant with broad leaves of light green and large clusters of lily-like flowers, very sweet-scented, and waxy white. 20 cts. each, postpaid.

Undulata variegata. Blue flowers and long narrow leaves, fluted and edged with white. 20 cts. each.

OFFER No. 59. The 2 Funkias for 30c., postpaid.

Hollyhocks have a very distinguished appearance

Digitalis, or Foxgloves

Gaillardia grandiflora

Blanket Flower. Round, daisy-like flowers, 2 to 3 inches across, borne on tall stems; begins to flower in June and continues a mass of bloom the whole season. Color, dark red, finely marked with rings of scarlet and crimson; flowers are very durable and fine for cutting.

Golden Glow Double Rudbeckia.

Grows 6 to 8 feet. Blooms during July and August, the first season, and bears immense masses of large, round, golden yellow flowers, perfectly double and 2 or 3 inches across, making a sheet of splendid golden yellow flowers for weeks. Large clumps, 20 cts. each, by express.

Hibiscus, or Marsh Mallows

Hibiscus, Crimson-Eye, or Marsh Mallow. A grand, hardy flowering shrub-like plant. No trouble to grow, bears immense flowers as large as dinner-plates, 6 to 7 inches across; pure white, with bright crimson center; very grand and showy. Price, 15 cts. each, postpaid; 2-yr. roots, 25 cts.; 3-yr. old roots, 40 cts., by express.

HARDY FERNS FOR SHADY PLACES

These are entirely hardy, and will make beautiful green beds in shady places where other things will not thrive. They also do well on the north side of a portico or house. We offer three varieties:

CINNAMON FERN (*Osmunda cinnamomea*).

EVERGREEN CHRISTMAS FERN (*Aspidium acrostichoides*).

GOSSAMER FERN (*Dicksonia punctilobula*).

Price, 25c. each, 3 for 65c., postpaid; \$2 per doz., \$14 per 100, by express.

Hollyhock, Double. Its long spikes of short-stemmed rose-like flowers are particularly well suited to plant against the wall or fence, or in the background of a hardy perennial border. We offer the four best colors—**Yellow, Crimson, White and Pink.** These are strong over-winter plants that will bloom this season. (See illustration.)

Single. Some people think these are even prettier than the double ones. Centers often show a bright eye. Price, mixed colors, 10 cts. each, 3 for 25 cts., \$1 per doz., postpaid.

Helianthus, Soleil d'Or or Sun of Gold. Has quilled petals, not unlike a dahlia; 4 feet; August and September. This is one of the hardy perennial Sun-flowers. Color, a bright golden yellow, and is one of the most effective border plants you can get.

Hemerocallis. Golden Double Crown Lily. 3 to 4 feet. Bears splendid large, lily-like flowers, golden yellow with carmine marking. Price, 10 cts. each, 3 for 25 cts., 75 cts. per doz., postpaid.

Hardy Ferns in a shady place will prove a constant delight

NEW LARGE-FLOWERING

JAPAN IRIS

Iris Kaempferi grandiflora

The grandest of all hardy Iris. The flowers are of enormous size, averaging from 8 to 10 inches across, and of most gorgeous and exquisite colors, including different shades of white, crimson, rose, violet, yellow and blue, each flower usually showing several shades and a large blotch of golden yellow surrounded by a dazzling halo of blue or white in the center. They bloom during June and July, 12 to 18 inches high, and are indescribably beautiful. They are perfectly hardy and grow and flourish in any good ordinary soil; they especially delight in a rich, deep, moist location, and for best display should be abundantly supplied with manure and water. They bloom regularly every year without attention, except that the roots should be divided and reset about every three years, when it will also repay you to renew the soil.

Beautiful Bedding Pansies

SPLENDID DOUBLE HERBACEOUS PEONIES

"ARISTOCRATS OF THE FLOWERS"

Peonies today show a wonderful improvement over former years. There is something of true magnificence about this aristocrat of the flowers, and in large mass-plantings they produce an effect that you remember—great, gorgeous blossoms, daintily dyed with the most exquisite shades, from white to the deepest reds. They are deliciously fragrant and for effective decorations, especially on a large scale, are totally unsurpassed. Bloom several weeks in the spring. Height, 2 to 3 feet.

CULTURE.—They will grow anywhere, reasonably speaking—though they do best in rich, deep soil and a sunny position, but thrive well in partial shade. Plenty of water during the growing season is an added stimulus. They are perfectly hardy, require no protection and are not troubled with insects or disease.

SIX FINEST PEONIES

Gigantea. Immense blooms 6 inches to 7 inches across, on long stems; color a most exquisite shade of bright pink, tipped with silvery white; indescribably beautiful and deliciously fragrant. The finest of all pink Peonies for cut-flowers. Price, \$1 each, postpaid.

Felix Crousse. This is one of the leading red Peonies. It is an exceptionally striking kind with large, double, ball-shaped blooms, and is extra-fine in every way. Price, 50 cts., each, postpaid.

Festiva maxima. For over fifty years this has been the standard for perfection in Peonies. The immense, perfectly double flowers are pure snow-white with a beautiful flake of carmine in the center. No collection of Peonies is complete without this beauty. Price, 50 cts. each, postpaid. (See illustration.)

Chrysanthemiflora rosea. A fine, large flower, deep rose-pink with pale shadings in the center. Excellent for cut-flowers. Price, 50 cts. each, postpaid.

Couronne d'Or. Beautiful white, with a blotch of red in the center around which is a halo of yellow. Immense, very full, ball-shaped bloom. Price, 50 cts. each, postpaid.

Victoire Modeste. A bewitching combination—brilliant lilac-rose, with full center of amber-white. Price, 50 cts. each, postpaid.

Peony, Festiva maxima

"A friend told me, not long ago, that she had counted sixty blossoms upon each of several of her [Peony] plants."—Page 54 in "The Woman's Hardy Garden," by Helena Rutherford Ely. See Book 4, page 4.

HARDY PERENNIAL PHLOX

The improved varieties of Hardy Perennial Phlox, which we offer below, are among the handsomest and most useful of our hardy herbaceous plants. The flowers are very large, and borne in grand massive heads of most brilliant colors. The plants are perfectly hardy, and when established will bloom on year after year, with little or no attention. There are few plants that with so little care will make such a handsome display of brilliantly colored flowers every season. To obtain best results, the soil for them should be deeply dug and have incorporated into it some well-decayed manure. They will be better if given water during a dry spell and a mulch of manure for the winter.

SWEET VIOLETS

Violets are great favorites and always in demand. They do well in open ground and if given a sheltered place will usually begin to bloom before the snow is gone, and continue bearing their lovely flowers for several months. Vast quantities are grown for market, and find a ready sale at good prices. The double varieties are not so vigorous in growth as the singles. It is advisable, therefore, to plant some of each, as the single varieties can spare enough leaves for bunching the double kinds when they are being grown for market. In this way the foliage of the double kinds is left to support the plant, which is a great advantage.

The demand for Violets is steadily increasing in this country, and we offer here the best yet introduced.

Governor Herrick. A splendid new single Violet. The flowers are rich, dark purple and are carried erect on long, strong stems. For freedom of bloom this new variety outclasses all others. Very fragrant. 20 cts. each, \$2 per doz., postpaid.

Lady Hume Campbell. The flowers are very large, perfectly double, like little roses, lovely azure-blue, and delightfully fragrant. They push up through the crown and stand above the leaves on straight, strong stems. 10 cts. each, 6 for 50 cts., \$1 per doz., postpaid.

Princess of Wales. Claimed to be the finest Violet yet introduced. The flowers are single and very large; they are borne in great profusion on stems 10 to 12 inches long all through the season. The color is true violet-blue, and the fragrance rich and delicious. 10 cts. each, 6 for 50 cts., \$1 per doz., postpaid.

California. Very showy and beautiful flowers of enormous size; light violet-blue, deliciously fragrant and borne on long, stout stems. 10 cts. each, 6 for 50 cts., \$1 per doz., postpaid.

Swanley White. The finest and best white Violet in cultivation; profuse bloomer, perfectly double and exquisitely fragrant; a true perpetual bloomer. 10 cts. each, 6 for 50 cts., \$1 per doz., postpaid.

Hardy Double English Violet. This violet is entirely hardy, perfectly double, and most deliciously fragrant. Color, a deep violet-purple. 15 cts. each, 3 for 40 cts., \$1.50 per doz., postpaid.

Japanese Fern-Ball

ORNAMENTAL FERNS

ROOSEVELT FERN—NEW, 1911. The grandest Fern of its class yet introduced. It resembles the world-famous Boston Fern, but produces twice as many wide, drooping fronds, and the pinnae are beautifully undulated, giving a pronounced wavy effect seen in no other variety. It has sprung into wonderful popularity, and when better known will be wanted by every one. 40 cts. each, 3 for \$1, postpaid; larger sizes, 75 cts. and \$1, by express. (See illustration.)

Amerpohli. An exquisitely beautiful Fern. Belongs to the ostrich-plume type; each broad, graceful frond seems like a piece of delicate lace. 25 cts. and 40 cts. each, postpaid; larger sizes 50 cts. and \$1 each, by express.

Whitmanii. (See illustration.) Fronds wide, graceful, dense and feathery. 20 cts. and 35 cts. each, postpaid; larger sizes, 50 cts., 75 cts. and \$1, by express.

Elegantissima. The New Plumed Fern. Both sides of the fronds are equally beautiful. Plant is a compact grower and one we highly recommend. 15 cts. and 25 cts. each, postpaid; larger sizes, 50 cts., 75 cts. and \$1, by express.

Boston Fern. Fronds grow 2 to 3 feet long and droop over in the most delightful way. 15 cts. and 25 cts. each, postpaid; larger sizes, 40 cts., 75 cts. and \$1, by express.

Newport Fern (Scotti). Resembles the Boston Fern, but grows more erect, has shorter, narrower fronds and makes three times as many of them. 15 cts. and 25 cts. each, postpaid; larger sizes, 50 cts., 75 cts. and \$1, by express.

Scholzei. The crested Dwarf Scotti Fern. The plant has a fluffy, crested appearance much like the Ostrich-Plume Ferns. 20 cts. each, postpaid; larger sizes, 50 cts. and 75 cts. each, by express.

ORNAMENTAL PALMS AND DECORATIVE PLANTS

Kentia Belmoreana Palm

The lovely Phoenix Palm

Araucaria excelsa

Kentia Belmoreana. This Palm is not affected by the dust and dry air of the house, and will grow and thrive where few other plants would live. Plants, 6 to 8 inches high, 25 cts. each; larger size, 35 cts. each, postpaid; extra-size, 50 cts. each, by express. (See illustration.)

Phoenix Roebelinii. One of the finest of all decorative plants. It resembles the beautiful *Cocos Weddelliana* in graceful foliage, but is much more vigorous in growth, and its gracefully recurring leaves, with very narrow, dark green pinnæ, give it a lightness and airiness not surpassed by any other variety. Price, 35 cts., each, postpaid; larger size, 75 cts. each, by express. (See illustration.)

Offer No. 65. 1 Kentia, 25-cent size, and 1 Phoenix, 35-cent size, the 2 for 50c., postpaid.

Latania Borbonica. **The Fan Palm.** Thrives in any ordinary living-room, in spite of heat, dust or drought. Has elegant, fan-shaped leaves, rich dark green, beautifully fringed. Grows easily, needs no petting or coaxing. Price, fine plants, 6 to 10 inches high, 25 cts. each; 10 to 15 inches high, 35 cts. each, postpaid; 15 to 18 inches high, 50 cts. each, by express. (See illustration.)

Umbrella Plant (*Cyperus alternifolius*). Can easily be grown in a bowl or dish half-filled with rich soil, then filled with water, and makes a nice window ornament. Price, 15 cts. and 20 cts. each, postpaid; larger sizes, 35 cts. and 50 cts. each, by express.

A young Rubber Tree.

The Rubber Tree (*Ficus elastica*). Its thick, large, olive-green leaves and graceful polished stems make it one of the very finest ornamental plants for table and parlor decoration. Price, fine, sturdy plants from 4-inch pots, 65 cts. each, postpaid; larger sizes, 50 cts., 75 cts. and \$1 each, by express. (See illustration.)

Sansevieria Zeylanica. The leaves grow erect, 1 to 2 feet high, and are beautifully cross-banded with pure white and deep green. Price, 15 cts. and 20 cts. each, postpaid; extra-size, 35 cts. each, by express.

Cocos Weddelliana. This is one of the most graceful of all the smaller Palms. Its slender, erect stem is freely furnished with graceful, arching fronds and fine, deep green leaves. It is especially suitable for fern dishes as the plants are of slow growth and maintain their beauty for a long time. Nice plants 6 to 8 inches high, 3 fronds, 30 cts. each, postpaid; larger sizes, 50 cts. and 75 cts. each, by express.

Ostrich-Feather Palm (*Areca lutescens*). Foliage is rich, glossy green, with bright yellow stems, full of grace and beauty; easily grown. Price, strong plants, 6 to 8 inches high, 25 cts. each; 10 to 12 inches, 35 cts., postpaid; larger plants, 50 cts. and 75 cts. each, by express.

Araucaria excelsa. **Christmas Tree Palm.** This is one of the handsomest and most beautiful of all the decorative evergreens for house culture. It grows nicely in parlor or living-room, requires very little care, not subject to insects, stands hard usage well, is exceedingly beautiful, and has a distinguished appearance entirely different from anything else. **Price, fine sturdy little trees, 8 to 10 inches high, two to three tiers of branches, from 4-inch pots, 75 cts., each, postpaid. Larger and heavier trees, \$1 and \$1.50 each, by express.** (See illustration.)

Offer No. 65a

SPLENDID NEW DAHLIAS

MOSTLY FIELD-GROWN ROOTS, POSTPAID

The majority of people are just finding out the possibilities of the Dahlia for inside decorative purposes as well as for garden planting. Within the past few years the demand for this flower has increased steadily and growers find it hard to fill orders. The varieties we offer here are, according to our judgment, the choicest selection to be had in this country, special attention having been given to include a variety of colors in each class. Please note that we offer, also, the new single varieties. (See page 69.)

FOUR LEADING NOVELTIES

PHOENIX (Cactus)

Color is medium, velvety maroon, with center striped fiery red, and bloom is very large. The beautiful cactus form of this flower, combined with the marvelous coloring, make it a leader among the latest introductions, and we consider it one of the most attractive Cactus Dahlias we have ever offered. Price, 40 cts. each.

MASTER CARL (Cactus)

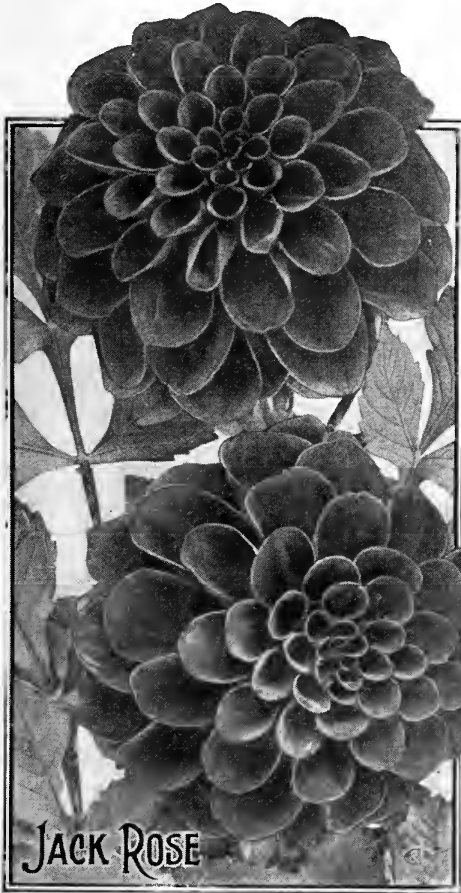

A gigantic Dahlia of perfect form and bright amber color. Petals are immense and gracefully curved; very choice in every way. Price, 25 cts. each.

BIG CHIEF (Double Century)

This is a great novelty with fern-like foliage. Color is brilliant cherry-red margined with rich, velvety crimson. Price, 25 cts. each.

JACK ROSE (Decorative)

This Novelty Dahlia has derived its name from its rich color, which is almost identical with the famous General Jacqueminot rose—a brilliant crimson-red with fiery tones in the center of the flower, the whole overlaid with a soft maroon. Flowers measure 5 to 6 inches across, and one plant will produce from 20 to 30 at a time. Unsurpassed for cutting. (See cut.) Price, 35 cts. each.

Offer No. 68. 4 above choice, specially selected Dahlias, \$1, postpaid

EIGHT GRAND DECORATIVE DAHLIAS

Delice. Color a beautiful, glowing rose-pink. Form is excellent, showing a perfect decorative type. It is said to be the finest pink Decorative Dahlia in commerce. Size is enormous. Price, 25 cts. each.

Catherine Duer. Deep, rich, glowing red. A giant flower, borne on erect stems and very useful for cutting. For effect in artificial light, after being cut, there is hardly another variety which has more brilliancy. Price, 15 cts. each.

C. W. Bruton. A clear, rich yellow, perfectly double. The grandest Decorative Dahlia in this color. Fine for cut-flowers. Price, 15 cts. each.

Grand Duke Alexis. A Dahlia of entirely new form, each petal being funnel shaped. Color, pure white, shaded to delicate shell-pink; flowers very large, full and regular. Price, 15 cts. each.

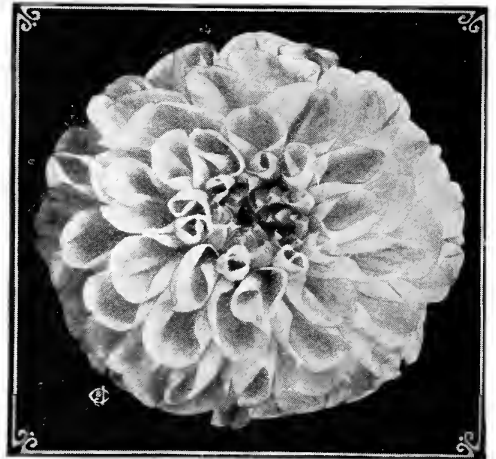

Mme. A. Lumiere (Fancy). The coloring is unique—a soft, creamy white with distinct violet-crimson on the tips of the petals, which extend downward, lessening toward the center, producing a charming effect. Price, 15 cts. each.

Souv. de Gustave Doazon. A giant in size, some flowers reaching 10 inches across; the largest Dahlia known in commerce. Color is an intense shade of orange-red with rich crimson shadings. The profusion of bloom is remarkable for such a large variety. Price, 20 cts. each.

Yellow Le Colosse. Flowers of very large size and perfect form. Color pure primrose-yellow; the best of its color and a valuable variety. Price, 20 cts. each.

Mrs. Roosevelt. Flowers perfectly double and extra-large, being 6 to 8 inches across. Color, a delicate pink, shading to soft clear pink. (See cut.) Price, 15 cts. each.

When the season advances we sometimes run short of roots and in that case we send growing plants which give as good results as the field-grown roots

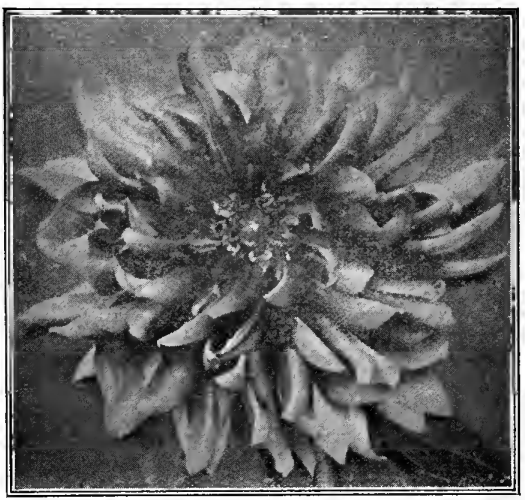

Mrs. Roosevelt. About 1/4 size

Offer No. 68a. The last 7 Dahlias for \$1, or the entire 8 including Delice, for \$1.20, postpaid.

GREAT AMERICAN WONDER LEMON

Fruits sometimes weigh two pounds. They will grow ten inches in diameter

WILL THRIVE AND BEAR BOTH FLOWERS AND FRUIT THE FIRST SEASON IN ANY ORDINARY LIVING ROOM

Fruits Are Immense

This is one of the grandest fruits for house culture ever introduced. Hundreds of testimonials have been received from persons who have tried it, testifying to its easy culture, wonderful productiveness and the enormous size and excellent quality of the fruit, some of which weigh as much as two pounds each, and are three times the size of the cut shown herewith. The tree is a strong, vigorous grower and may be kept in a pot or box. Set out in summer and take indoors in winter; requires no coddling, not troubled with insects, and will begin to bloom as soon as fully established; will continue to bear both flowers and fruit continuously every month in the year. The flowers are pure, waxy white and very sweet, like orange blossoms the leaves are thick, glossy green, and shine as if varnished.

Nice mailing plants, 20 cts. each; larger size, 25 cts. each, postpaid; 2-yr. size, 50 cts.; 3-yr. size, 75 cts., by express.

Extract from "The Capitol Journal," Salem, Oregon
 "... Mrs. O. D.—'s American Wonder Lemon tree is over 2 ft. high, and has 13 fine lemons on it. It was furnished by The Conard & Jones Co., West Grove, Pa., and is beautiful."

THE BEAUTIFUL DWARF OTAHEITE ORANGE

This beautiful dwarf Orange Tree is one of our most charming house plants, with thick, glossy green leaves and deliciously sweet, pure white flowers. It begins fruiting at once, and bears flowers and lovely golden yellow Oranges all the year round; easily grown and requires very little care. Price, 15 cts., 20 cts. and 25 cts. each, postpaid; larger sizes, 35c. and 50c., by express.

KIN KAN, KUMQUAT, OR JAPANESE GOLD ORANGE

A wonderfully beautiful little Orange Tree, native of Japan, which bears lovely miniature Oranges no larger than a Damson plum. Bright, rich, golden yellow, delightful flavor, and skin so thin the fruit is eaten skin and all; excellent also for crystallizing and preserving. Begins to bloom and bear while quite small. Immensely productive and marvelously beautiful for house and conservatory culture; every one wants it at sight. It is easy to grow, requires no special treatment, and is loaded with flowers and fruit every year. The flowers are one of its great attractions, as they are as large as tuberoses or orange blossoms, and of the same delightful fragrance. Price, good mailing size, 60 cts. each, postpaid; fine, bearing-size trees, 75 cts. and \$1 each, by express.

OLEA FRAGRANS (Sweet Olive)

Has thick, glossy green leaves and small, pure white flowers. It is highly valued for its *intense fragrance*, which will fill the whole house with delicious perfume. Price, nice plants, 25 cts. and 35 cts. each, postpaid; larger size, 50 cts. each, by express.

Smyrna Fig Tree

GENUINE FRUITING FIG

(*Ficus Carica*, a native of Smyrna)

We offer splendid, well-rooted plants of this lovely fruiting tree which, when well established will bear large crops of delicious Figs. It can be grown outdoors in the South, but in the northern states it should be planted in a large pot or tub so it can be taken to the cellar over winter after it becomes dormant outside. It is easy to grow and one of the most delightful fruits you can plant. The figs grow like a branch from the side of the shoot and are produced on the young wood. Please order early; stock is limited. Mailing-size plants, 40 cts. each, postpaid; larger size, 75 cts. each, by express.

Kin Kan Orange

A specimen plant, 5 feet high, on trial in our greenhouses, had 209 delicious fruits on it at one time.

FLOWER SEED DEPARTMENT

This department is entirely distinct from our Rose and Plant business. It is presided over by those who for years have devoted themselves exclusively to the study and handling of the best Flower Seeds and Bulbs to be had. Whether in Europe, Japan, California, or at home, wherever the different varieties reach their greatest perfection—there is our supply obtained. We endeavor, not in premiums, but in the stock furnished, to give full value, and on orders amounting to \$1 or over, we send extras for good measure. We call particular attention to our 1912 Novelties.

For complete index to Flower Seeds and further information of these signs, see page 5. ☉ Annuals; ☉ Biennials; ◡ Green-house Plants; ♀ Perennials; ♂ Stove Plants; § Climbing Plants.

This is considered an ideal Aster. Pkt. 20 cts.

OFFER NO. 74c. 12 above varieties on this page, 1 pkt. of each, \$1.20, ppd.

THE FINEST ASTERS ☉

Asters are among the most beautiful and popular flowers grown from seed; they are easy to grow and bloom abundantly during July, August and September. The flowers are large, full and double and borne on fine, branching plants 1 to 2 feet high. Splendid for making bouquets, and the same flowers will last for two weeks or more if you clip off the ends of the stems and give them fresh water each day.

NEW MIKADO ASTERS ☉

The finest Asters introduced in recent years. The petals are narrow, very long and gracefully reflexed (see illustration). Plants are unusually vigorous, often making a dozen long, graceful stems, each crowned with an immense flower.

101 **Mikado Pink.** Exquisite lavender-pink. Pkt. 15 cts.

133 **Mikado Rose.** Soft rose. Pkt. 15 cts.

134 **New Mikado White.** Extra-fine. Pkt. 15 cts.

SEMPLER'S BRANCHING ASTERS ☉

These splendid Asters give immense satisfaction. Our customers speak of them in the very highest terms, and say they cannot be recommended too highly. The plants grow about 2 feet high, and are of sturdy, branching habit. They are enormous bloomers and in their season are covered all over with splendid, large, perfectly double flowers of exquisite beauty. The seed should be sown in boxes or a seed-bed, and transplanted after weather is settled, where they are to remain; set about 2 feet apart, and keep the ground mellow and well cultivated, "and they will do the rest."

YOU CAN GROW C. & J. LILY-CANNAS FROM SEED

ONE OF MANY TESTIMONIALS

Gentlemen:

I got a packet of your prepared Canna Seed, 22 in number, and, after soaking the seed twenty-four hours in almost hot water, planted them. It is just three weeks ago today since I got the seed, and sixteen of the twenty-two are up—some of them 3 inches high; the other six are sprouted and will be up a few days later. I keep them by the kitchen range until they begin to come up, then transfer them to the window. I think this a good advertisement for The Conard & Jones Canna Seed.
(Miss) F. E. P., Great Bend, Kansas.

The Department of Agriculture at Washington, D. C., recognizes the superiority of our Cannas and orders them periodically. (See page 44 and cut below.)

Our Vice-President, Antoine Wintzer, has won an international reputation as an originator and propagator of new Pedigree Cannas. His years of patient, skillful, persistent cross-hybridizing has given us a wealth of new and rare varieties from which have been chosen the largest and most beautiful. For richness of color, size and durability, these Cannas far surpass the ordinary sorts and kinds you may have been accustomed to see. In short, this page offers you not only the largest assortment, but unapproachably the finest Cannas to be had from any one, anywhere, and seeds are all at small cost. (Be sure to see the chapter on Canna Plants on pages 44 to 49, and our beautiful Cannas in colors on back cover page.)

How To Grow Lily-Cannas From C. & J. Seed

A thing you need to know about Canna seeds is that they have hard shells and are therefore very slow to germinate unless you take the precaution to file or cut a bit of this away.

With small, hard seeds this is difficult, therefore, for the convenience of our customers we have already prepared in this way all the named varieties of seeds offered on this page. A pkt. contains about 20 seeds; an ounce 75 to 100 seeds.

When ready to plant, soak seeds in warm water for half a day or more, and then plant indoors, about 1 inch deep. You should get about sixty per cent to germinate. Transplant to 18 inches apart as soon as ground is warm.

Our seeds are saved from picked flowers only and cannot be duplicated anywhere

C. & J. "Velvet Green" Lawn Grass Seed

FOR SEEDING DOWN NEW LAWNS AND RENOVATING OLD ONES

In seeding down a lawn or grass plot, first, prepare the ground so as to have a fine, smooth seed-bed; second, put on plenty of seed; third, start the lawn mower as soon as weeds are tall enough to catch the machine, and keep them mowed off close till the grass has time to start and become well established. The seed should be lightly raked in and the ground made smooth with a roller.

- 466 **Best Double.** ☉ This is the finest strain of best double Petunias, and will produce a large proportion of grand double flowers of the most magnificent colors and shades, but it is very scarce and expensive, and requires great care to grow. (See cut.) Pkt. 10 cts.
- 467 **Hybrida.** ☉ Finest mixed colors. Pkt. 5 cts., 1/8oz. 25 cts.

Offer No. 83a. 1 pkt. each of Petunias, Giants of California, Snowball, Best Double, and Hybrida, the 4 for 25c.

CHOICE SELECTED PANSIES

Our seed is saved from selected flowers of greatest beauty. Sow as early in spring as convenient for summer and fall bloom, and in August and September for early spring bloom.

413 GIANT RUFFLED, "MASTERPIECE"

A remarkable type of Giant Five-spotted Pansies, having ruffled or curled edges, giving the flower a curious frilled or ruffled appearance. The flowers are extraordinarily large and the colors are rare and beautiful, including different shades of garnet, ruby, indigo, white, etc. "Masterpiece" is undoubtedly the finest novelty in Pansies recently introduced. (See cut.) Pkt. of 125 seeds 15 cts.

THREE SPECIAL PANSIES

414 **Giant-flowered Pansy, Madame Perret.** A superb new strain; flowers of gigantic size, full-rounded form and exquisite colorings, including many lovely shades of rich velvety red, rose-pink, canary-yellow, etc. Finest mixed colors. Pkt. of 125 seeds 10 cts.

415 **Coquette de Poissy.** Fine, large flowers, well borne upon stout stems; color, a rich and peculiar shade of rosy mauve, deepest at center, shading to white at the outer edge. Very rare and beautiful. Pkt. of 125 seeds 10 cts.

416 **Giant Bugnot.** One of the very finest Pansies ever introduced. The flowers are of enormous size and fine, rounded form, very rich and velvety, marked with a dark central blotch and elegantly veined with contrasting colors. Pkt. of 125 seeds 10 cts.

Giant Ruffled Pansy, "Masterpiece"

Offer No. 84. The 3 kinds, 1 pkt. each, for 25c; or, including "Masterpiece," the 4 for 35c.

FOUR GRAND PANSIES IN SEPARATE MIXTURES

417 **Imperial German Pansies.** One of our most valuable strains; always greatly admired for the regular, perfectly formed flowers and the wonderful variety and intense brightness of their colors. Pkt. of 150 seeds 10 cts., 1/2oz. 50 cts.

418 **Royal Prize Pansies.** A famous mixture of the best English, French and German Pansies, including the fancy striped and spotted kinds. Pkt. of 150 seeds 10 cts., 1/2oz. 40 cts.

419 **Improved Giant Trimardeau Pansies.** The Trimardeau Pansies are noted for the immense size of their flowers, rich and brilliant colors and hardy, vigorous growth. Pkt. of 150 seeds 10 cts., 1/2oz. 50 cts.

420 **Cassier's Giant Odier Pansies.** Flowers of very largest size, each one having three or five large, bright spots on dark backgrounds, very showy. Pkt. of 150 seeds 10 cts., 1/2oz. 50 cts.

Special Offer No. 84a. The 4 above pkts. for 30c.

422 SWEET-SCENTED PANSIES

These make deep-rooted and compact clumps, which live over winter. They bear a profusion of brilliant, sweet-scented flowers. Mixed colors only. Pkt. of 125 seeds 5 cts., 1/2oz. 50 cts., oz. \$1.50.

421 "VIOLAS"—TUFTED, OR BEDDING PANSIES

These plants are hardy, of vigorous growth, and form deep-rooted, compact clumps. They are more perennial in character than ordinary Pansies, throwing out new shoots annually. The flowers are of most brilliant colors, including white, lemon, orange, claret, crimson, purple, etc. They are borne on long stems which shoot up directly from the roots, which accounts for their blooming nine months in the year. Pkt. of 125 seeds 10 cts., 1/2oz. 50 cts.

Conard & Jones Co.

Mattituck, L. I.

Please find enclosed an order for some pansy seed. The seed I had from you last year was beautiful and produced strong healthy plants. They were extra large and the colors were fine. I was very much pleased.

Yours respectfully,

Miss G. G.

CHOICE SELECTED PANSIES, continued

425 C. & J. Gold Medal Perfection Pansies

One of the finest and most exclusive Pansies we offer. Our other strains are fine, the best of their kind, just as represented, but our Gold Medal Perfection Pansies are a selection of the largest-flowering and most beautiful varieties yet produced, and are certainly not excelled in size and beauty of coloring by any offered in this country. (See cut.) Pkt. of 150 seeds 10 cts., $\frac{1}{8}$ oz. 75 cts.

424 Mammoth Parisian Pansies

This is a splendid, high-bred strain recently introduced from Paris. They are remarkable for their mammoth size (frequently measuring 4 inches across), exquisite coloring and bold, bright markings. The colors include lovely shades of cinnamon, violet, canary, orange, black, garnet, light blue, indigo, cream, etc. They are strong, robust growers and profuse bloomers, and many of them are delightfully fragrant. They are the favorite Pansies of Paris and are very popular here also. Pkt. of 200 seeds 10 cts., $\frac{1}{8}$ oz. 75 cts.

423 Conard's New Sunshine Pansies

This splendid new mixture is highly recommended for those who wish strong, vigorous plants, sure to grow and bloom quickly, and bear an abundance of extra-large, brilliantly colored Pansies all through the season. The flowers are of fine form, rich, velvety texture, and bright, handsome colors. Sure to please and give satisfaction to all who plant them. Pkt. of 200 seeds 5 cts., $\frac{1}{4}$ oz. 40 cts., oz. \$1.40.

426 Orchid-Flowered Pansies

This is an exceedingly beautiful strain of these beautiful flowers. They belong to the Giant-flowering class, and are remarkable for the large size of their flowers and their soft and pleasing shades. The ground colors are mostly light, marked with large brown or golden yellow blotches, which shade into rays or veins toward the edge. The shades include lovely tints of Chinese red, terra-cotta, rose, pink, lilac, orange, etc., contrasting finely with the richer colors of the other kinds. Pkt. of 125 seeds 10 cts.

Special Offer No. 85. 1 pkt. of each of above, 4 in all, for 25c., postpaid.

Portulaca, Double

FINE FOR MASSING IN BEDS

PORTULACA ☉

Sun Plant, or Rose Moss

One of the most beautiful and showy annuals. Produces vast numbers of brightest-colored flowers like miniature roses; pure white, crimson and golden yellow; valuable for beds, baskets and borders; grows low and spreading; does best in hot, dry weather, and in warm, sandy soil. It is extensively used and fine for a ground-cover between other plants, the beautiful bright blossoms, low on the ground, making a brilliant show. (See cut.)

488 **Finest Single, Mixed.** ☉ Pkt. 5 cts., oz. 40 cts.

489 **Double Rose-Flowered, Mixed.** ☉ Unsurpassed for brilliancy and beauty. Pkt. 10 cts.

☉, ☉, 2, 2, 2, 2, 2. See page 5.

PRIMROSES (3 kinds)

833 **Primula Sinensis fimbriata** (Fringed Chinese Primrose). ◊ Undoubtedly one of the most beautiful and satisfactory house plants; never attacked by insects, and will thrive in a window where there is but little sun and few other plants would grow. Splendid, large-flowering. Mixed colors. Pkt. 10 cts. (See cut.)

834 **Everblooming Primula obconica grandiflora**. ◊ The flowers are much larger than the old white kind, and of many beautiful shades, including pink, violet, blush-rose, lilac, white, etc. Best-quality seed. Pkt. 5 cts.

950 **PRIMULA vulgaris**. ◊ The common wild English Primrose, with beautiful flowers of yellow and brown. They should be sown where they can remain and multiply. Pkt. 10 cts.

493 **RAMBLER ROSE SEED, Home Grown**. ◊ Saved from our own fields; several different colors and varieties mixed. White, crimson, pink, yellow, etc. They grow quickly and are entirely hardy. Pkt. 5 cts., oz. 10 cts.

494 **DWARF MULTIFLORA ROSES**. ◊ Often bloom in four months after sowing the seed. They flower in large clusters and are delightfully fragrant. Pkt. 5 cts.

495 **AMERICAN PILLAR ROSE SEED**. ◊ See color plate. Large single flowers of rich, rosy pink approaching brilliant carmine, with just a glint of white in the center, and yellow stamens. We estimated certainly not less than 3,000 on one young bush. This seed offers you the fascinating prospect of obtaining a Rose entirely new and different from any existing sort. Pkt. 15 cts.

Salpiglossis grandiflora ◊
(Painted Tongue)

Very pretty, graceful flowers, borne on long stems in great profusion; the colors range from light blue and straw-color to deepest purple and maroon. A beautiful bedding plant. Mixed colors. Pkt. 5 cts.

June 7, 1911.
The flowers came to hand as promised and I found them in splendid condition and every one seemed highly pleased with them.
W. G. S., Wilmington, Del.

Solanum Capsicastrum Melvini (new)

Primula Sinensis fimbriata. Fringed Chinese Primrose

522 Solanum Capsicastrum Melvini ◊

New. A very bushy, compact plant, 12 to 15 inches high, covered with brilliant scarlet cone-shaped berries about 1/2 inch in diameter, each berry standing well above the foliage making it one of the best winter decorative plants ever introduced. Pkt. 25 cts. (See cut.)

521 **Jerusalem Cherry**. ◊ (Solanum Pseudo-Capsicum). Resembles a miniature orange tree. Pkt. 5 cts.

Ricinus (Giant Castor Bean)

Stately, tree-like plants, quickly growing 6 to 8 feet high, with richly colored foliage and stems. Magnificent until frost. (See cut.)

501 **Cambodgensis**. ◊ Large, palm-like leaves of the darkest bronze-maroon, stalk and stem nearly black; height, 6 to 8 feet. Pkt. 5 cts., oz. 15 cts.

502 **Zanzibarensis**. ◊ New and distinct. The enormous leaves measure 2 to 2 1/2 feet across. Plants make perfect pyramids of foliage. Pkt. 5c., oz. 15c.

BRILLIANT SALVIAS

507 **Splendens, Drooping Spikes**. ◊ A splendid new, large-flowering Salvia (Scarlet Sage); bears three times as many flowers as the ordinary *Salvia splendens*. It is exceedingly handsome and desirable for lawn or garden, whether planted singly or in groups with other flowers. The flowers are intense, dazzling scarlet, and are borne in endless profusion until late in the fall—one of the most beautiful flowers you can plant. Pkt. of 75 seeds, 10c., 1/8oz. 40 cts. (See cut.)

508 **Splendens, Erect Spikes**. Large-flowering Scarlet Sage. ◊ Grows easily; makes grand, stately plants 2 to 3 feet high, completely covered with intense, bright scarlet flowers. Pkt. 10 cts., 1/4oz. 50 cts.

509 **Blue** (*Salvia farinacea*). ◊ This is the lovely blue Salvia, forming dense, bushy plants, with long spikes of beautiful blue flowers. Pkt. 10 cts.

1912 SWEET PEA NOVELTIES

ORCHID-FLOWERED, OR COUNTESS SPENCER TYPE

Among recent Sweet Peas novelties there has appeared nothing finer than the new race of "Orchid-Flowered, or Countess Spencer" type, and now the "Duplex" type. The enormous size of the flowers and their wonderful beauty of form will be fully shown to any one who will plant from the following lists. These leaders represent the acme of present-day Sweet Pea culture from the gardens of the foremost originators.

Note how double it is

The New Duplex Spencer

719 New Duplex Spencer. Color is rich cream-pink. The grand flowers are produced on long, stiff stems and are considered the best of all pink Sweet Peas for bouquets. This new "Double Spencer" is the greatest novelty introduced for years. Pkt. of 15 seeds 15 cts. (See illustration.)

720 Vermillion Brilliant. This is claimed to be "The most brilliant, iridescent scarlet Spencer yet produced." The flowers are of perfect form, borne on stout stems. A grand variety which is always a prize-winner wherever shown. Pkt. of 12 seeds 15 cts.

714 Ethel Roosevelt. A true waved variety of the largest and most perfect Spencer type. The ground color is a soft, pleasing primrose or straw color, overlaid with dainty flakes and splashes of blush-crimson. It is undoubtedly the daintiest and most beautiful of all striped or flaked Sweet Peas. Pkt. of 30 seeds 10 cts.

721 Irish Belle, or Dream. Quite a new shade in Sweet Peas—lovely lilac, flushed with pink, which gives a soft tone to the entire flower. Pkt. of 12 seeds 15 cts. (See cut.)

718 Florence Nightingale. A charmingly soft, clear, rich lavender which is enlivened by a very faint sheen of rose-pink. The flowers sometimes measure 2 inches across. Pkt. of 30 seeds 15 cts.

722 Rainbow Spencer. A great advance in the striped section. The ground color is ivory-white, flaked and lightly streaked with rose. Pkt. of 15 seeds 15 cts.

Offer No. 88. 1 pkt. each of the above Novelties, the 6 for 50c.

FOURTEEN CHOICE SPENCERS

(About 50 seeds in each packet)

New Spencer Irish Belle, or Dream

702 Apple Blossom Spencer. Tinted pink. Some flowers are very daintily and others more deeply tinted pink. Pkt. 10 cts.

701 Asta Ohn. Lavender. Charming soft lavender, suffused mauve. The stems are long and strong, and bear four flowers each. Pkt. 10 cts.

703 Aurora Spencer. Variegated. Cream-white ground exquisitely flaked and mottled rich orange-salmon. Pkt. 10 cts.

705 Countess Spencer. Pink. This is the original Spencer. Color, lovely pale pink. Pkt. 10 cts.

706 Dainty Spencer. White. A strong grower. Color white, edged with pale rose. Exquisite. Pkt. 10 cts.

708 George Herbert. Rosy carmine. This variety is of largest size and best Spencer form. Pkt. 10 cts.

709 King Edward VII. Crimson-scarlet. One of the most beautiful of the Spencers. The color is captivating, almost a crimson-scarlet self. Pkt. 10 cts.

715 Masterpiece. Lavender. Flowers very large, well waved and abundantly produced. Color is rich lavender, flushed rose. Pkt. 10 cts.

716 Maude Holmes. Crimson. Flowers are of largest size, carried on long stems. Brilliant crimson, both standard and wings being well waved. (See cut.) Pkt. 10 cts.

717 Mrs. Hugh Dickson. Cream-pink. Flowers are well placed on long stems. Color cream-pink on buff ground. Award of Merit, N. S. P. S., 1910. Very choice. Pkt. 10 cts.

710 Mrs. Rutzahn. Apricot. Buff or apricot ground, flushed and suffused with delicate pink. Pkt. 10 cts.

711 Othello Spencer. Maroon. Very large size. Color rich deep maroon. Pkt. 10 cts.

712 Senator Spencer. Variegated. Deep claret or wine-color stripes and flakes on a light heliotrope ground. Pkt. 10 cts.

707 White Spencer. White. Produces flowers of enormous size that are absolutely pure white. Pkt. 10 cts.

Offer No. 88a. Any 7 above 10-cent kinds for 50c., or the set of 14 for 90c., postpaid.

Crimson Spencer Maud Holmes

779 Dwarf Cupid Sweet Peas

Very useful for sowing in borders where they form beds of dark green foliage 1 foot wide and 6 to 8 inches high. Mixed colors, pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts., postpaid.

780 Double Sweet Peas

Only about 25 to 40 per cent of the flowers will come double, and these must not be confused with the new "Duplex" Spencers. Best colors, mixed. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts., lb. 75 cts., postpaid.

BEST UP-TO-DATE SWEET PEAS

NO FLOWERS ARE EASIER TO GROW OR MORE CERTAIN TO GIVE SATISFACTION

The Culture is very simple—plant the seed 3 or 4 inches deep, in the most convenient place you happen to have, very early in the spring—just as early as possible—February, March, April or May, according to the season and locality. Keep the ground loose and mellow, give the young plants good support to climb on—wire netting, twine or brush. Keep the flowers picked off clean every day as fast as they open (**this is very important**), and they will bloom abundantly for weeks.

NOTE.—Our regular 5-ct. pkts. of Sweet Peas each contain from 80 to 90 seeds, enough for a single row 4 to 6 feet long; 1 oz. contains from 300 to 360 seeds, sufficient for a single row 20 feet long, and ¼ lb. is enough for 75 feet of row.

Price: pkt. 5c., any 7 pkts. for 25c. 12 pkts. for 40c., oz. 10c.; in larger quantities, ¼ lb. 20c., lb. 60c., postpaid

NEW SELF-WATERING FLOWER BOXES

On shady windows where flowers do not thrive, Ferns can be used with grand effect (see page 64)

ALWAYS NEAT AND SATISFACTORY—EVERY ONE GUARANTEED NOT TO LEAK

Your interests and ours will be mutually served if you order one or more of our self-watering boxes. Their chief merit lies in the fact that plants grow and thrive better in them and blooms will be larger and foliage heavier than in the ordinary surface-watered boxes.

The boxes are provided with a self-watering device which renders attention unnecessary except at intervals of from

10 to 20 days. Through the tube in the corner water is poured into the reservoir (e) underneath the false bottom (d) which supports the soil (b).

Sponges (cc) touch the extreme bottom of box and extend upward into the soil in which the flowers are planted, thus

SUPPLYING WATER BY SUB-IRRIGATION.

These boxes received Honorable Mention at the Convention of the Society of American Florists, held at Rochester, August, 1910, and are EXTENSIVELY USED ON THE MAGNIFICENT BLACKSTONE HOTEL AND THE PUBLIC SCHOOLS OF CHICAGO

WITH C. & J. GORGEOUS CANNAS

"Conard & Jones Co., West Grove, Pa.:

"I saw no Cannas in 1910 that approached in beauty and distinction those I had from you. During 1911 my C. & J. Cannas have given a continuous performance of mass and individual blooms that has made my garden a Mecca for flower-lovers. From July until hard frost there was a changing feast of unusual floral beauty. J. Horace McFarland."
